

## Dashboard Tips: 5 Calendar Year Historical Trend

### About This Dashboard

The 5 Calendar Year Historical Trend dashboard presents six key juvenile justice indicators: complaints, diversion, supervision, detention, YDC commitments, and court outcomes. It is designed to be accessible and can be used with a keyboard or screen reader.

Indicator definitions are available in the top-right section of the dashboard (Dashboard Legend).

The RtA population includes events involving youth ages 16-17 (e.g., charged, diverted, or placed on supervision).

### How to Use This Dashboard

This dashboard can be used with a keyboard or a mouse. All content is available without using a mouse, and text descriptions are provided to help interpret the charts.

- Use the **Tab key** to move between filters, buttons, and charts, or use a mouse to click on them.
- Select a **District** to filter the data.
- Select a **County** to further refine results (optional).
- Use the **navigation buttons** to switch between the **Previous Year** and **Previous YTD** dashboards.
- Review charts to compare trends across years.

North Carolina has 30 juvenile judicial districts and 100 counties.

### Glossary

Access the glossary by clicking the “**Dashboard Legend**” button or using the Tab key and pressing Enter.
