California State Hazard Mitigation Officer
California Governor's Office of Emergency Services
3650 Schriever Avenue
Mather, California 95655

Dear State Hazard Mitigation Officer,

Facebook recognizes that the FEMA BRIC grant application and selection process will take significant time to complete, with project selection not likely to occur until late 2021. We also understand that final project approval and funding award letters will require additional time. Despite the extended timeline for pursuing the grant opportunity and executing construction, Facebook remains committed to providing the required local match funding for the Menlo Park SAFER Bay Project.

Sincerely,

Lauren Swezey
Sustainability and Landscape Project Lead
