The Vendor shall include the bid pricing schedule on the attached Bid Submittal Form based on all categories of work. Except where otherwise specifically provided, all pricing will be unit pricing.

The Activating Entity shall determine at the outset of the contract when the billing cycle for contract payments will begin – either on the contract activation date or date of hazard event declaration. The debris monitoring services vendor shall be expected to mobilize and sustain its workforce in all activating jurisdictions in a region for a period of 90 days and will agree to submit their invoice for reimbursement to the Activating Entity, a week prior to the 90th day. After the initial 90-day period expires, the Vendor shall be entitled to payment for the first 60 days of work performed by the Vendor for an Activating Entity after the Notice to Proceed provided the Vendor has satisfactorily performed the functions required under the contract. The Activating Entity shall have sole discretion in determining whether the work has been performed to its satisfaction. An example of the payment schedule is listed below:

- Notice to Proceed.
- Debris monitoring services vendor reports to Activating Entity within 24 hours of notice.
- Debris monitoring services vendor submits bill to Activating Entity for first 60-day period within one (1) week of the end of the first 90-day period with same procedure for subsequent 30-day periods during the project.
- At the end of the next 30-day period, the Activating Entity remits payment for the previous 30-day period if satisfactory work has been performed.
- Process continues until work is completed and all payments have been made. By submitting a bid, Vendor acknowledges and accepts these terms.
