AUDIT FINDINGS

Narrative:

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-audit, on-site audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The North Carolina Department of Public Safety contracted with DX Consultants, LLC, 914 Gasparilla Dr. St. Petersburg, FL 33702 for PREA Auditing Services of the Catawba Correctional Center. The purpose of the audit was to determine the Catawba Correctional Center's level of compliance with the standards of the Prison Rape Elimination Act of 2003. The PREA audit of the Catawba Correctional Center (Catawba CC) was conducted on February 24-25, 2021 by Trish Brockman-Bernhards, US DOJ Certified PREA Auditor. The facility is a North Carolina Department of Public Safety-Prisons facility located at 1347 Prison Camp Road, Newton, North Carolina 28658. This was the facility's third PREA audit. The most recent PREA audit was on January 10-11, 2018.

Pre-Onsite Audit Phase

The audit process began on January 7, 2021, when an informational email was sent to the Regional PREA Program Analyst. The e-mail contained information regarding who the assigned auditor was, the date the pre-audit notices were to be posted, when the Pre-Audit Questionnaire was due and the actual date of the onsite audit. The email also addressed the posting of the attached bilingual PREA Audit Notices containing the address offenders could write to and confidentially contact the auditor prior to the auditor's arrival at the facility. The auditor received no correspondences from any offenders prior to the onsite portion of the audit. While onsite, there were no special requests from the offender population to speak with the auditor either.

Facility staff were instructed in the informational email as to what areas of the facility the audit notices should be posted to and to take photos of the notices when posted, dated if possible and identify the location of where the notices were posted. The auditor received correspondence in the form of email and photos that the notices were posted were loaded on the Online Audit System on January 11, 2021. The bilingual audit notices were verified during the onsite tour in various locations throughout the facility including the gatehouse, main administrative building, Programming area, medical area, various offices in the Satellite trailer, kitchen/dining hall, recreation area, Canteen office, Clothes House, Canteen, Barbershop, Laundry, Library, and housing units A, B, C, D, E, F, G and the holding area currently being used as quarantine and isolation for Covid-19 positive offenders.

The auditor received notification that the PAQ was completed and submitted to the Online Audit System (OAS) on February 18, 2021. Once received, the pre-audit review of the documentation commenced. The auditor completed a documentation review using the Pre-Audit Questionnaire. The Catawba CC PREA Compliance Manager uploaded information, that included policies, procedures, training records, internet research, and supporting documentation for all forty-five (45) standards. The documentation uploaded to the OAS for each standard contained the supporting documentation in-regards to the Pre-Audit Questionnaire; however, the information did not sufficiently address each standard and additional information had to be requested. Additional supporting documentation was provided to the auditor during the on-site and after the facility's on-site visit. The supporting documentation was uploaded to the OAS under the supplemental files.

A conference call was scheduled for February 18, 2021, with the Program Director/PREA Compliance Manager (PCM) to review the schedule for the on-site visit, discuss the auditor's results of the Pre-Audit Questionnaire and supporting documentation provided on the OAS and review information to be sent to the auditor prior to the on-site visit to the facility. The information requested was to include the following:

- Interview Preparation Sheet
 - Hours of each security shift
 - Employees assigned to the facility (name, title, working hours/shift)
 - Physical location of record
 - Employee training
 - Employee human resources records
 - Criminal background checks (employee & contractor)
 - Volunteer and contractor PREA training
 - Offender medical
 - Offender mental health
 - Offender grievances
 - Offender PREA Intake screenings/reassessments
 - Offender PREA Education (intake/comprehensive within 30 days)
 - Sexual abuse, sexual harassment and retaliation investigations-administrative (staff-on-offender and offender-on-offender)
 - Sexual abuse, sexual harassment and retaliation investigations-criminal (staff-on-offender and offender-on-offender)

- Specialized staff
- List of staff with shift/days off needed to appropriately conduct PREA interviews
 - Security and non-security staff who have acted as first responders
 - Medical staff
 - Mental health staff
 - Staff who performs screening for risk of victimization and abusiveness
 - Staff who supervise offenders in segregated housing
 - Intermediate/higher-level facility staff
 - Intake staff
 - Non-medical staff involved in cross-gender strip or visual searches
 - Volunteers who have contact with offenders
 - Contractors who have contact with offenders
 - Administrative investigators
 - Criminal investigators
- Offender roster with age/housing unit assignments and list(s) of identified categories of the following inmates
 - Physically disabled, cognitively disabled, blind, deaf or hard of hearing, and limited English proficient offenders
 - Transgender and Intersex offenders, Gay and Bisexual offenders
 - Offenders in segregated housing (for risk of sexual victimization)
 - Offenders who reported sexual abuse
 - Offenders who disclosed sexual victimization during risk screening
- PREA Investigations Request (from prior 12-months)
 - Staff-on-offender allegations of sexual abuse and sexual harassment
 - Offender-on-offender allegations of sexual abuse and sexual harassment
 - Overview of administrative and criminal cases and dispositions
 - Pending cases
 - Closed cases
 - Substantiated cases
 - Unsubstantiated cases
 - Unfounded cases
 - Criminal cases referred to prosecutor
 - Prosecutor refused cases
 - Indictment
 - Conviction
 - Acquittal
- Total Number of Hotline calls
- Offender Grievances-Allegations of sexual abuse and sexual harassment

The Program Director/PCM sent the documentation (staff roster, staff schedule for random and specialized staff etc.) to the auditor prior to arrival at the facility. Also, additional supporting documents were provided during the on-site visit to address the deficiencies.

Research

During the pre-onsite audit phase, the auditor conducted internet searches on the facility and agency and reviewed the North Carolina Department of Public Safety's website (www.ncdps.gov). The website includes the NCDPS zero-tolerance policy, investigative information, previous PREA audit reports, PREA reporting information, brochures, posters, handouts and annual reports. The prior PREA report was also reviewed. The general public can access the PREA policy on the website.

The Family Guidance Center has a current Memorandum of Understanding with the Catawba CC for emotional support services for offender victims of sexual abuse. The MOU was reviewed and the auditor was able to make telephone contact with a victim advocate from the Family Guidance Center. Details of the telephone interview are provided in the applicable sections of this report. Just Detention International and RAINN (the Rape, Abuse & Incest National Network) were contacted to determine if the agency had reported any complaints from the facility in the past twelve (12) months. Both organizations reported they did not have any contact from offenders of Catawba CC.

Contact was also made with a Sexual Assault Nurse Examiner (SANE) with the Catawba Valley Medical Center by telephone. The auditor and the SANE discussed the forensic services offered to offender victims of sexual abuse. During the call, the SANE was able to explain that community level of care is offered to all patients, even offender victims of sexual abuse. Details of the telephone interview are provided in the applicable section of this report.

Onsite Review

Catawba Correctional Center (Catawba CC) is located in Catawba County North Carolina. The address is 1347 Prison Camp Road, Newton, North Carolina 28658. Catawba was one of many field-unit prisons the state assumed responsibility for in 1931 and was renovated

in the 1930's to house offenders who worked for the Department of Transportation constructing highways. Some of the original buildings are still in use today and are part of the sixteen (16) buildings the facility uses today. The facility's design capacity is 246 with an average daily population of 200. The offender count on the first day of the audit was 223.

The on-site audit was conducted on February 24-25, 2021. The auditor arrived at the Catawba Correctional Center the morning of February 24, 2021. An entrance briefing was conducted with the Warden, Associate Warden and Program Director/PREA Compliance Manager. During the entrance briefing, the audit process was explained and a tentative schedule for two (2) days to include facility tour, conducting interviews with the staff and offenders and reviewing the documentation. A brief discussion was held regarding current facility operations due to Covid-19 impacting the offender population. The discussion involved how interviews could be conducted safely and proper sanitizing between interviews could be maintained.

A complete guided tour of the entire facility was conducted by the Program Director/PCM with the Warden and the Associate Warden accompanying. The tour included visiting the gatehouse, main administrative building, Programming building, medical area, kitchen/dining hall, recreation area, Canteen, Barbershop, Commissary-Dry Storage area, Laundry, Library, and housing units A, B, C, D, E, F, G and the holding area currently being used as quarantine and isolation for Covid-19 positive offenders. The tour ended after approximately two (2) hours.

During the tour, the auditor was allowed unimpeded access to any area of the facility. While touring, the auditor was seeking to find blind spots, listening for opposite gender announcements, observing staff and offender interactions as well as searches conducted by staff and locating camera and security mirror placements. Offenders were observed to be under constant supervision of the staff while involved in various activities. The auditor also reviewed the facility schematics. The facility currently has eighteen (18) cameras that are watched by the Warden and Sergeants. There is minimal recording capabilities.

Informal and formal conversations with employees and offenders were conducted. Notifications of the PREA audit was posted in all locations throughout the facility as well as postings informing offenders of the telephone numbers to call and report sexual abuse and sexual harassment and to call the victim advocate for emotional support services. The auditor reviewed the "Daily Narrative" forms containing PREA related documentation (unannounced rounds, PREA related discussions held at shift briefings & cross gender announcements). During the tour, it was observed that shower and bathroom areas throughout the facility (A, B, C, D, E & F Dorms) did not provide adequate privacy to use the bathroom, change clothing and shower without staff of the opposite gender observing the offender naked. The only housing unit that had privacy barriers for showers and toilet/urinal areas was in G-Dorm. Construction of barriers began immediately and were completed before the audit ended. The facility provided the auditor photos of shower curtains that were installed in all showers and barriers that were constructed that allowed privacy for offenders to use the toilet/urinals.

Staff Interviews

The PREA Auditor handbook requires auditors to interview at least twelve (12) random sample of staff. The auditor conducted fourteen (14) random sample of staff interviews. The auditor interviewed a variety of staff from a diverse cross-section of work assignments, supervisors and line staff, males and females and staff of various races. There were two security shifts. The hours for each shift were 0600-1800 hours and 1800-0600 hours. Hours for Administrative staff were 0800-1630 hours. The facility reported fifty-six (56) staff were employed at the facility. Private interviews with staff were conducted in the Chapel area while practicing social distancing. There were twenty-four (24) specialized interviews conducted. Specialized individuals were selected based upon their subject matter expertise in the various areas. The facility does not house youthful offenders, therefore, interviews for line staff who supervise youthful offenders and education and program staff who work with youthful offenders were not conducted. Additionally, there were no non-medical staff involved in cross gender strip searches or staff who supervise segregated housing. The facility personnel were found to be cooperative and professional. Staff morale appeared to be very good and the observed staff/offender relationships were determined to be professional.

The facility reported in its PAQ that (125) volunteers have been trained in agency policies and procedures regarding sexual abuse and sexual harassment prevention, detection and response policies and procedures. There are also forty-four (44) employees of the Catawba and Iredell Department of Transportation sites and the Town of Catawba that are also trained to work with offenders from Catawba CC. Due to restrictions in place at the facility because of the coronavirus, outside volunteers not employed by the facility have not been allowed to enter the facility. Interviews with volunteers were conducted over the telephone. Telephonic interviews with one (1) Religious, one (1) Narcotics Anonymous, one (1) Department of Transportation and one (1) Alcoholics Anonymous volunteers confirmed they completed the Sexual Abuse and Harassment 101 training and their knowledge obtained about NCDPS zero tolerance and their duty to report sexual abuse and harassment.

There is evidence of Catawba CC's Warden obtaining a Memorandum of Understanding with Family Guidance Center on 10/01/2019 to provide free confidential crisis intervention and emotional support services related to sexual abuse offenders. Any offender seeking services can call the telephone number at no additional cost to the offender. The auditor contacted a representative from the Family Guidance Center and she explained the services the Family Guidance Center offers. She reported there were no calls made to the Family Guidance Center in the past twelve (12) months from Catawba CC. Catawba Valley Medical Center provides the emergency services and the forensic medical examinations at no financial cost to the victim. In an interview with the SANE nurse, no Catawba CC offenders had been provided forensic exams at the Catawba Valley Medical Center.

Additionally, interviews were conducted at a previous time by certified auditor Dorothy Xanos with the NCDPS Secretary's representative (PREA Director), NCDPS Contract Administrator and one (1) of the NCDPS PREA Program analysts prior to the on-site visit. A summary of

these interviews was provided to the auditor and were adequate.

All staff interviews were conducted with the guidance of the national PREA Resource Center, PREA Compliance Audit Instruments- Interview Guide. The Interview Preparation Sheet and employee rosters received when arriving onsite assisted the auditor with the selection process for the random and targeted staff. A detailed list and quantity of staff interviewed are noted below.

Offender Interviews

During the two (2) day on-site visit, there were two hundred and twenty-three (223) male offenders in the facility. The PREA Auditor Handbook requires auditors to interview at least ten (10) random sample of offenders. The auditor conducted nineteen (19) random sample of offender interviews. The Program Director/PCM provided the auditor with an offender list provided for the interview process. The random offenders were selected from all seven (7) dormitory style units (one (1) housing unit with four (4) open bay dormitories and two (2) housing units with two (2) open bay dormitories and one (1) housing unit with a single dorm. The interviewed offenders were of various ages, nationalities and ethnic backgrounds.

The PREA Auditor handbook requires auditors to interview at least ten (10) targeted offenders. There were six (6) targeted offender interviews conducted. The facility reported they did not have the following targeted offender categories housed at the facility during the onsite review. As a result, additional random offender interviews were conducted. These categories of offenders were not interviewed:

- o Youthful Offenders
- o Offenders in Restrictive Housing for high Risk of Sexual Victimization
- o Offenders who Reported Sexual Victimization During Risk Screening
- o Offenders with LEP, Blind or Deaf

There were zero (0) offenders who met multiple identified categories from the required list of targeted offender interviews. Although the PREA Auditor Handbook requires a minimum of ten (10) targeted offender interviews, there were no offenders among the population that met four categories. During staff interviews, questions were asked to ascertain if offenders in these four categories were known among the population. Additional random offenders were interviewed.

All offender interviews indicated they were well informed of their right to be free from sexual abuse and sexual harassment and how to report sexual abuse and sexual harassment using several ways of communication such as trusted staff, administrative staff, knowledge on external reporting telephone number (Offender Reporting Sexual Abuse/Forgiveness Ministry) and Family Guidance Center for crisis intervention and victim advocate services. There were some minor inconsistencies regarding the PREA Opposite Gender Announcements being made in the Living Units. Some offenders reported that the announcements are made differently by each shift (some made each time a female staff entered a dorm and some made only at the beginning of a shift). Sometimes the announcements were heard and sometimes they were not heard. Through both staff and offender interviews, it was reported that several female staff were not entering the bathroom/shower areas and were relying on offenders or male staff to perform counts and area checks in these areas. This information was shared with the Warden, Associate Warden and Program Director/PCM. An update to the Post Orders was created and sent out to staff within a week of the onsite audit ending. Overall, the offenders interviewed demonstrated an understanding of the PREA compliance program, the intake screening process, the prevention and protection process and reporting mechanisms Catawba CC had in place. Offenders interviewed further stated that staff members were responsive to their needs and reported that they felt safe at this facility.

All offender interviews were conducted with the guidance of the National PREA Resource Center, PREA Compliance Audit Instruments- Interview Guide. The Interview Preparation Sheet and offender rosters received when arriving onsite assisted the auditor with the selection process for the random and targeted offenders. Private interviews were conducted in the Multi-Purpose Room where social distancing was maintained. A detailed list and quantity of offenders interviewed are noted below.

Offender Categories	Number of Interviews Conducted
Random sample of offenders:	19
Targeted offenders:	
Youthful offenders	0
Offenders with a physical disability	1
Offenders who are blind, deaf, or hard of hearing	1-w/ hearing aid
Offenders who are limited English proficient	0
Offenders with a cognitive disability	2
Offenders who identify as lesbian, gay, or bisexual	0
Offenders who identify as transgender or intersex	1
Offenders in segregated housing for high risk of sexual victimization	0
Offenders in segregation housing (not for high risk of sexual victimization)	0
Offenders who reported sexual abuse	1
Offenders who reported prior sexual victimization during risk screening	0
Total random offenders interviewed	19
Total targeted offenders interviewed	6
Total offenders interviewed	25

File Review

Based upon the information provided on the PREA Audit Request for Information form completed by the Catawba CC staff, the auditor was able to determine the facility had zero (0) administrative sexual abuse allegations and zero (0) sexual harassment allegations for the period of 1/01/2020 to 1/31/2021. Of the zero (0) sexual abuse allegations, zero (0) was allegations against offenders and zero (0) were allegations against staff. Of the zero (0) sexual harassment allegations, zero (0) were allegations against staff and zero (0) allegations were against an offender. Zero (0) of the zero (0) sexual abuse allegations were found to be unsubstantiated and zero (0) were found to be unfounded. Of the zero (0) sexual harassment allegations, zero (0) were unable to be investigated due to victims not willing to participate in investigation, zero (0) was found to be unfounded and zero (0) were found to be unsubstantiated. There were no administrative sexual abuse or sexual harassment allegations or investigations at the facility in the previous twelve months. No incidents of criminal charges being filed occurred in the last twelve months.

Employee personnel files were maintained in the Human Resources Office. The criminal background records check documentation was maintained in the employee personnel files. The auditor reviewed documentation from five (5) employee personnel files. When selecting the files, the auditor considered reviewing employee files of newer employees who were recently hired as well as staff who had been employed with the facility and staff that were recently promoted to positions at the facility. Training files were reviewed on the same staff.

The auditor reviewed documentation from five (5) offender files. Some documentation in the files included offender education participation acknowledgement forms. Intake Screening information and PREA allegation and investigation information was observed on the agency OPUS computer data collection system. The case management staff made very precise contact note entries concerning an offender's arrival date at the facility as well as the Orientation the offenders attended.

The auditor reviewed two electronic medical and mental health files. These files are electronically maintained. he Auditor was provided with information on where medical or mental health staff would make entries in the electronic record. There were no medical or mental health files to review that were based upon sexual abuse investigations.

Type of File	Number of Files Reviewed
Administrative/criminal investigative files	0
Grievance files	0
Employee personnel	5
Employee training	5
Offender/intake screening files	5
Medical files	1
Mental health files	1
Total number of files reviewed	17

Close-Out

At the end of the onsite portion of the audit, an exit debriefing late in the evening on February 25, 2021 a summary of the findings was conducted with the Program Director/PCM, Associate Warden and Warden. At the exit debriefing, the auditor gave an overview of the audit and commented on the on-site observations, interviews, and summarized the strengths and weaknesses after completing the Pre-Audit and On-Site Audit phases. Further discussion was held regarding Standard 115.41 and the risk assessment process. Facility staff were advised discussions would be continuing with the PREA Office regarding their progress with the needed changes in the OPUS system. There was a discussion to send the auditor additional documentation for a few minor issues and Catawba staff ensured the information would be sent to the auditor within the next week. Discussion regarding the privacy barriers was held and it was reported that the Maintenance staff had completed construction and photos would be emailed once all areas were complete. The auditor shared that she would make contact with the PCM if any further items were needed. The auditor thanked the Warden and his staff for their hard work and dedication to the PREA process.

AUDIT FINDINGS

Facility Characteristics:

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate or resident population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

Catawba Correctional Center (Catawba CC) is located in Newton, North Carolina in Catawba County. The address is 1347 Prison Camp Road, Newton, NC 28658. The facility originally opened in 1932, this is one of the many facilities that were renovated in the 1930's to provide housing for inmates who worked building roads. Two original dormitories are currently in use and two modular dormitories were added in 1978. Under the South Piedmont Consent Decree, a 128-bed housing unit was added in 1987.

The Catawba CC is a minimum-security prison for adult male offenders. Many of the buildings from that era are still utilized today as part of the 16 buildings located on the property. The facility is currently a Work Release facility as well as a reentry facility for male offenders ages 18 and older. The age range of the offender population during the onsite portion of the audit was 19- 67 years old. The facility does not house youthful offenders. The design capacity is 246. The offender count on the first day of the audit was 223. The facility staffing consists of security and non-security employees. Non-security staff include administrative staff, case management and programming staff, maintenance, medical and food service staff. The PAQ indicated there were 56 staff assigned to the facility. The daily operations are managed by Sergeants who oversee correctional officers. There are two security shifts at the facility. The shift times are 0600-1800 hours and 1800-0600 hours.

The facility has a total of seven (7) housing units. Housing Units A, B, C, D, E, and F are general population units while Housing Unit G that houses Work Release offenders. There are five (5) holding cells that prior to Covid 19 were not being utilized. These cells are now being utilized as quarantine cells for Covid 19 positive offenders or transfers into the facility who are required to quarantine before going into general population. Each housing unit is a single level open dormitory style unit. Offenders sleep in bunk beds in each area. Offenders have access to televisions, telephones, chairs and microwaves. The auditor observed PREA materials posted on the housing units, telephone numbers posted near the telephones and PREA posters throughout all areas of the facility. Housing Units A-D each have large shower and bathroom areas. Modifications made during and immediately after the onsite audit provide additional privacy that allows offenders the ability to shower, use the restrooms and changed clothing without staff of the opposite gender being able to view them. Modifications were also made to the shower and restroom areas in Housing Units E & F. All housing units now offer offenders the ability to shower, use the restroom and change clothing without staff of the opposite gender being able to view them. Housing Unit G had appropriate barriers in place allowing privacy for the offenders. Additional buildings on facility grounds include the Chapel, kitchen/dining facilities, gatehouse, programs building, canteen, library, laundry, medical, clothes house, music room, outside visitation area and an Administrative office area. One mirror is utilized in the canteen building and provides staff the ability to see an area behind some clothing shelves. The facility has fifteen (15) cameras with minimal recording capabilities.

Under normal operations, Catawba CC provides transitional programs such as Male Nurturing, Chaplaincy Reentry Program, drug and alcohol use services, GED tutoring and testing. These programs aid the offenders upon their release. Narcotics Anonymous and Alcoholics Anonymous support groups are also represented. Offenders have the opportunity to participate in the work release program, which allows them to be employed by private-sector employers to begin their re-adjustments to the community and earn a wage that can be used to support their children and families, as well as to pay restitution. Offenders may be assigned to a wide range of jobs that include kitchen, janitorial, unit maintenance, or Department of Transportation crews. Offenders are also able to participate in a vocational program offered by Catawba Valley Community College. Certain offenders are able to be placed on the ELC (Extended Leave in the Community) program and are under the supervision of Probation/Parole.

Medical care is offered by one onsite nurse during normal business hours. A physician assigned to the Albemarle Correctional Institution also provides services at Catawba CC every Friday. Forensic medical exams are completed at the Catawba Valley Medical Center. Mental Health staff are not located on site but available as needed. The facility has a staff member trained as a PREA Support Person who is available to offer advocacy support for offender victims of sexual abuse. The PREA Investigator works during nightshift and would be called in to investigate any situations of sexual abuse. If there is potential that allegations may be criminal, the allegations/investigation is referred to the State Bureau of Investigation and/or local law enforcement investigators at the Catawba County Sheriff's Department. Criminal cases involving staff would be conducted by the Office of Special Investigations out of Raleigh.

AUDIT FINDINGS**Summary of Audit Findings:**

The OAS will automatically calculate the number of standards exceeded, number of standards met, and the number of standards not met based on the auditor's compliance determinations. If relevant, the auditor should provide the list of standards exceeded and/or the list of standards not met (e.g. Standards Exceeded: 115.xx, 115.xx..., Standards Not Met: 115.yy, 115.yy). Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Number of standards exceeded:	0
Number of standards met:	45
Number of standards not met:	0

The Auditor found the North Carolina Department of Public Safety has developed appropriate policies and procedures that aid in prevention, detection and response to sexual abuse and sexual harassment. The Auditor found the facility's staff are well trained and retained information provided through the agency's training efforts. The Auditor formally interviewed staff and determined staff understood their responsibilities in the agency's policies and procedures regarding the prevention, detection and response towards acts of sexual abuse and sexual harassment. Staff understand their roles as first responders to incidents of sexual abuse and sexual harassment. The Auditor determined the facility has been successful in developing a zero-tolerance culture towards all forms of sexual abuse and sexual harassment. The Auditor discovered the facility's leadership support its staff in the prevention, detection and response efforts. Facility leadership makes unannounced rounds throughout all facility areas to deter sexual abuse and sexual harassment.

The facility's population was educated regarding the agency's prevention, detection and response efforts towards sexual abuse and sexual harassment. Most offenders interviewed informed the Auditor they were confident in staff's abilities and felt staff would maintain confidentiality with sexual abuse related information. The Auditor observed staff interactions with the offender population while on site. All interactions were professional and appeared as if staff have developed appropriate working relationships with the population. The overall population interviewed by the Auditor felt safe in the facility.

A review of files and other documents revealed facility personnel are documenting actions in accordance with the NCDPS policies and procedures related to sexual abuse and sexual harassment. Each offender informed the Auditor facility staff are professional and take incidents and threats of sexual abuse or sexual harassment seriously. Formal interviews with staff revealed they are knowledgeable in the policies and procedures to prevent, detect and respond to incidents of sexual abuse and sexual harassment.

The agency ensures its investigators are trained to conduct sexual abuse and sexual harassment investigations in confinement settings. Investigators understand how to conduct appropriate investigations following an allegation of sexual abuse and sexual harassment. The facility's investigator understands the requirement to refer criminal acts of sexual abuse to the local law enforcement agency for criminal investigation. Policy requires investigations be objective and are conducted promptly and thoroughly. Investigators are required to inform offenders of investigative determinations at the conclusion of each investigation. The facility would conduct an incident review of all allegations within 30 days of the conclusion of the investigation, unless the allegation was unfounded by the facility's investigator.

The Auditor determined the facility meets all (45) standards.

Auditor Discussion Instructions

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The Catawba Correctional Center, as well as all other North Carolina DPS-Prison facilities, utilize agency Policy F .3400 (Offender Sexual Abuse and Sexual Harassment, dated 8/12/2019) mandating zero tolerance towards all forms of sexual abuse and sexual harassment that applies to staff, contractors and volunteers. Policy F. 3400 also included definitions, provided training requirements of staff and described conduct of investigations involving PREA allegations. Policy F .3400, as well as Catawba Correctional Center Standard Operating Procedure Ch. S .2400 (PREA Coordinated Response Plan, dated 4/20/2020) and the Catawba Correctional Center Standard Operating Procedure Ch. S .2300 (Sexual Abuse and Harassment, dated 4/20/2020) clearly outlines the agency and facility's approach to preventing, detecting, and responding to sexual abuse and sexual harassment. NCDPS-Prisons Policy F .3400 (Offender Sexual Abuse and Sexual Harassment, dated 8/12/2019), NCDPS-Prisons Policy F.1600 (Management of Security Posts, dated 8/12/2019) and NC General Statute 14-27.7 (Intercourse and sexual offenses with certain victims; consent no defense) describe that fraternization or sexual misconduct between staff, contractors, volunteers and offenders. Each described the prohibited behaviors and sanctions if such behavior was discovered.</p> <p>NCDPS's commitment of ensuring zero tolerance for sexual misconduct in all its institutions was observed during the onsite visit. This commitment was clearly observed by the posters, flyers and reporting systems in place for staff and offenders. Staff receive information regarding PREA during their initial academy as well as on-going training of staff during their annual in-service training.</p> <p>The NCDPS-Prisons, agency-wide PREA Director (Coordinator) reports directly to the Professional Standards, Policy & Planning Chief Deputy Secretary, who in turn reports directly to the NCDPS Secretary. This position works with sixty-nine (69) NCDPS facilities throughout the state implementing and guiding the agency's efforts toward PREA compliance. A written summary of an interview conducted by certified PREA Auditor Dorothy Xanos earlier in the audit cycle was reviewed. The summary review allowed this auditor to verify that the PREA Director (Coordinator) has enough time to ensure PREA standards are met and that all related concerns are addressed.</p> <p>Each NCDPS facility has its own PREA Compliance Manager (PCM) that reports to the Warden. The Warden at the Catawba Correctional Center has appointed the current PCM. The PREA Compliance Manager at the Catawba Correctional Center addresses all PREA concerns that occur throughout the facility. He reported that he has sufficient time and authority to coordinate efforts to comply with PREA standards.</p> <p>There is a definite commitment to the sexual safety and security of the staff and offenders at the facility. Based on interviews, documentation provided and observation of operations at the Catawba Correctional Center, this auditor believes the facility "meets" this standard.</p>

	<p>The following evidence was analyzed in making the compliance determination:</p> <p><u>Information or Documents Reviewed:</u></p> <ul style="list-style-type: none"> • NCDPS-Prisons Policy F .1600 (Management of Security Posts, dated 8/12/2019) • Catawba CC Standard Operating Procedure Chapter K .1600, (Operational Searches, dated 4/20/2020) • Catawba CC Post Order .01 OIC-Sergeant (dated 5/7/2020) • Catawba CC Post Order .02 All Dormitories (date 2/8/2021) • NCDPS Safe Search Practices Training Curriculum, dated 07/01/2019 • Training Records for Catawba CC staff for Safe Search Practices Training • Catawba CC Cross Gender Announcement & Acknowledgement form (OPA T.30.pdf) • Cross Gender Announcement Poster • Memo from PREA Compliance Manager-No Females Assigned to Catawba • Memo from Associate Warden-Counts and Rounds dated 2/26/2021 • Catawba CC's PREA Audit : Pre-Audit Questionnaire (Prisons and Jails) • PREA Standards Compliance Checklist <p><u>Interviews:</u></p> <ul style="list-style-type: none"> • Catawba CC PREA Compliance Manager • Random sample of Staff • Random sample of Offenders <p><u>Findings:</u></p> <p>Review of the NCDPS-Prisons Policy F .1600 (Management of Security Posts, dated 8/12/2019) prohibits any cross-gender strip search or visual body cavity searches by staff of the opposite gender. Catawba CC Standard Operating Procedure Chapter K .1600, (Operational Searches, dated 4/20/2020) clearly defines complete searches (strip searches) and routine searches (pat or frisk searches). Either gender staff may perform routine searches (pat or frisk) on the male offender population. Offenders are not allowed to be supervised by staff of the opposite gender while showering or in the toilet area unless appropriate privacy screening is provided to obscure the view of breasts, genitalia and buttocks. Policy and the Offender Handbook also requires offenders to cover themselves appropriately when not in the shower or not utilizing toilets and while in route to and from those areas. The Catawba CC Post Order .01 OIC-Sergeant (dated 5/7/2020) and the Catawba CC Post Order .02 All Dormitories (date 2/8/2021) require staff of the opposite gender to announce their presence when entering areas of the housing units where offenders may be in a state of undress, showering or using the toilet facilities.</p> <p>Offender interviews varied on whether or not they felt there was adequate ability to shower, perform bodily functions and change their clothing without non-medical staff of the opposite gender viewing them. During the tour, the auditor observed that offenders in A, B, C, D, E and F Dorms did not have the ability to shower, perform bodily functions and change their clothing without non-medical staff of the opposite gender viewing them. These issues were quickly remedied with the placement of shower curtains and partial door coverings allowing for privacy but also allowed for security to be maintained. Offenders assigned in G-dorm confirmed that they have the ability to shower, perform bodily functions and change their clothing without non-medical staff of the opposite gender viewing them as they have showers with shower curtains, three toilets with barriers/doors and 2 urinals with barriers that prevent staff of the opposite gender from viewing them. This was confirmed during the auditor's tour of the facility. The design of the shower and restroom facilities in G-Dorm allowed for privacy. Shower curtains and barriers/doors allowed for privacy but also allowed for security to be maintained.</p> <p>The offender rulebook also requires offenders to be clothed while going to and from the shower and restroom areas. Facility procedures also prevent female staff from conducting strip searches, unless exigent circumstances require, at which point, the cross-gender strip search should be documented. The PREA Compliance Manager indicated the facility has had no cross-gender searches (pat, strip or visual body cavity) conducted over the past twelve (12) months. There were also no exigent circumstances of cross gender searches (pat, strip or visual body cavity) conducted over the past twelve (12) months.</p> <p>In 2013, the NCDPS-Prisons PREA Administrator sent an email as part of its "Campaign of Awareness" regarding the development of a cross-gender bulletin board document and announcement that is to be shared with staff as well as a bulletin board poster. A Cross Gender Announcement and Acknowledgement Form (OPA-T30) was attached to the email,</p>

with directions that all staff were to sign and the original signed document was to be placed in the employee's personnel file. This form is still used today.

Review of the training curriculum, Safe Search Practices Training, indicated compliance with policy and the standard. The PCM provided curriculum that indicated pat searches, cross-gender pat searches, searches of transgender and intersex offenders are conducted in a respectful, professional manner and prohibits cross-gender strip searches as well as cross-gender visual body cavity searches of any offender. Curriculum also explains that a transgender or intersex offender should not be searched or physically examined for the sole purpose of determining the offender's genital status. Training records provided indicated that 100% of all security staff received training on conducting cross-gender searches and searches of transgender and intersex offenders in a professional and respectful manner consistent with security needs by attending the Safe Search Practices Training. PREA Acknowledgement Forms and Cross Gender Announcement & Acknowledgement forms are signed by all staff completing the PREA: Sexual Abuse and Sexual Harassment 101 & 201 courses and the PREA-Sexual Abuse and Sexual Harassment Medical & Mental Health Response training courses.

Staff interviews revealed that staff fully understand the circumstances that require staff of the opposite gender to announce their presence. Opposite gender announcements at the beginning of shift by female staff were observed by the auditor. The announcements at the beginning of shift are noted in the Shift Narrative Log by the OIC.

Staff were all able to articulate the search procedures and situations that would be considered exigent circumstances as well as the required authorizations and the required documentation to be completed. Staff were also aware that the Catawba CC SOP, Ch K .1600, (Operational Searches, dated 4/20/2020) did not allow complete searches of transgender or intersex offenders to solely determine the genital status of the offender. Staff shared that they would conduct pat searches of a transgender or intersex offender in a private area if the individual offender requested.

After reviewing agency policy and facility SOP, training curriculum, training records, visually observing the shower and bathroom areas of the facility, observation of staff, interviewing staff and offenders, this auditor finds this standard in compliance.

Health Services Policy & Procedure Manual, Policy # TX VII-1 (Developmental Disabilities, effective 8/2007) and Health Services Policy & Procedure Manual, Policy # TX VII-2 (Physical, Mental or Cognitive Disabilities, effective 8/2009) explains how specialized case management services are available for offenders that are identified as developmentally disabled, physically disabled or mentally disabled. The specialized case management includes assisting in orientation to the unit policies and procedures, representation at disciplinary proceedings and additional evaluations, if necessary. Offenders with Limited English Proficiency are afforded the same opportunities. Offenders who are observed to have difficulty understanding or speaking English are screened by use of an approved screening instrument. For new admissions, the screening will occur in the diagnostic center. For offenders who have completed diagnostic processing, the screening will be conducted at the facility by program or educational staff. Upon arrival at the diagnostic center, all offenders receive a handbook that contains the agency's zero tolerance policy toward sexual abuse and sexual harassment, and how to report incidents or suspicions of sexual abuse and sexual harassment. The Offender Handbook is available in Spanish and English. Offenders sign a form indicating they have received this initial information. This form also allows staff to document if the offender needs any extra assistance for comprehending the information. When an offender transfers to another facility, they will not be provided a new Offender Handbook. Policy prohibits the facility from relying on offender interpreters, offender readers or other forms of offender assistants except when a delay in interpreter services could compromise an offender's safety, the performance of first responder duties or the investigation of the allegations.</p> <p>A current contract is in place offering language translation, interpretation and American Sign Language services that staff can utilize when services are necessary for an offender with disabilities or for those who are limited English proficient. The Language Resource Center provides on-site interpreting, telephonic interpreting, video remote interpreting as well as document translation. This auditor observed that PREA informational posters are visible throughout the facility in both English and Spanish.</p>

Initial PREA Education is provided by intake staff in a manner that ensures the offender comprehends the material presented and it is read to the offender during the intake process. Policy requires that within three calendar days of arriving at the Catawba Correctional Center, a PREA brochure provided to the offender population included information on suspicious behavior, reporting, prevention strategies, making false claims, definitions of forms of sexual misconduct and retaliation. As with other material, it is available in an English and Spanish version.

During the on-site visit, one (1) physically disabled (ADA standard) offender, one (1) offender who was blind or hard of hearing, zero (0) limited English proficient offenders and two (2) offenders with cognitive disabilities were identified, interviewed and reported that they remembered being asked question regarding PREA when they came into the facility. Those offenders reported they understood information that staff presented and know reporting processes. Case management services are provided for any offender with any identified special needs. The PREA Compliance Manager reported there were no offender interpreters, assistance or readers that assisted another offender with reporting allegations of sexual abuse or sexual harassment.

Random staff interviews indicated staff, mostly supervisory staff, were aware of the Language Resource Center interpretation services. A few newer staff were not aware but said they would contact a supervisor. All staff were aware they were not allowed to utilize offender interpreters, offender readers or other types of offender assistants except in limited circumstances. Some staff reported that if an offender was LEP, he would more than likely be assigned to an LEP facility.

After reviewing agency policy, offender PREA Education presentation, interviewing staff and offenders, this auditor finds this standard in compliance.

The facility was successful in securing a Memorandum of Understanding with a victim advocacy services from a rape crisis center for potential sexual assault victims. A MOU is in place with Family Guidance Center, dated 10/01/2019. The Family Guidance Center will provide confidential emotional support to offenders who are victims of sexual abuse and will accompany an offender during a forensic exam. Offenders are provided information from the Family Guidance Center during their orientation. A telephonic interview was held with a representative from Family Guidance Center. She indicated there had been no calls from offenders assigned to Catawba CC in the last twelve (12) months. In addition, NCDPS PREA Office sent a memo requiring all facilities identify staff to become trained to become a PREA Support Person (PSP). The PSP can accompany an offender (of the same sex), during a forensic exam, accompany and support the offender victim through the investigatory interview and provides emotional support, crisis intervention and referrals. Catawba CC currently has designated two (2) staff. This staff was screened for appropriateness to serve as a victim advocate and received specialized training (PREA Support Person Training). Staff interviews and training records confirmed the responsibilities of the PSP at the Catawba CC.

In 2019, the Commissioner of Division of Adult Corrections and Juvenile Justice sent a memorandum to the North Carolina Sheriff's Association providing them information concerning investigations in accordance with the national PREA standards. It was noted in the memorandum "that it is the desire of the NCDPS that all assisting law enforcement entities also adhere to listed requirements to include offering all victims of sexual abuse access to forensic medical examinations, whether on-site or at an outside facility, without financial cost, where evidentiary or medically appropriate. Such examinations shall be performed by SAFEs or SANEs where possible. If SAFEs or SANEs cannot be made available, the examination can be performed by other qualified medical practitioners. Policy F.3400 requires all offenders be assessed during an intake screening and upon transfer to another facility for their risk of being sexually abused by other offenders or sexually abusive toward other offenders. The policies also require that Diagnostic Services staff conduct screening to determine an offender's risk of being sexually abused by other offenders or their risk of being sexually abusive towards other offenders. The screening shall use an objective screening instrument that obtains the following minimum criteria to assess offenders for risk of sexual victimization: Whether the offender has a mental, physical, or developmental disability; The age of the offender; The physical build of the offender; Whether the offender has previously been incarcerated; Whether the offender's criminal history is exclusively nonviolent; Whether the offender has prior convictions for sex offenses against an adult or child; Whether the offender is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming; Whether the offender has previously experienced sexual victimization; The offender's own perception of vulnerability; and Whether the offender is detained solely for civil immigration purposes. Offenders sentenced to the NCDPS are never detained solely for civil immigration purposes as North Carolina General Statues do not permit. Additionally, the screening tool considers prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse (as known to the agency) in assessing offenders for risk of being sexually abusive. The policy also prohibits disciplining offenders for refusing to answer or for not disclosing complete information related to questions regarding whether the offender has a mental, physical, or developmental disability, whether the offender is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender non-conforming, whether the offender has previously experienced sexual victimization and the offender's own perception of vulnerability during the screening or assessment process.</p> <p>Upon arrival to Catawba CC and within 72 hours, the Case Manager completes a screening inventory of the offender. The Offender Population Unified System (OPUS) automatically calculates if the offender is considered high-risk for victimization and/or high-risk for abusiveness based on the responses from the screening inventory. There were 248 offenders that entered the facility either through intake or transfer within the past twelve (12) months who were screened for risk of sexual victimization or risk of sexually abusing other offenders within 72 hours of their entry into the facility. Offender records were reviewed and all indicated that the offenders' intake screenings were all completed within 72 hours of their arrival at Catawba CC. Offender interviews also confirmed they met with Catawba CC staff and were screened within 72 hours or less. Case Management staff reported that if an offender's intake screening is not done on their day of arrival, it is done the next day after their arrival unless the offender arrives on Friday, then the intake screening is completed the following Monday. The</p>

information gained from the screening for risk of victimization and abusiveness is strictly limited to staff on a "need to know basis" and is used in determining housing, bed, work, education and program assignments with the goal of keeping offenders who are high risk of being sexually victimized separated from those who are at high risk for being sexually abusive.

Recent revisions to the NCDPS-Prisons Risk Screening Guide now require completion of a 30-day reassessment of the offender's risk to sexual victimization and/or abusiveness is required and includes consultation with the offender. The screening upon transfer is utilized for this reassessment. Additional changes to the screening process include a screening upon transfer to another facility followed by an additional 30-day reassessment. The case manager screening link in the OPUS system alerts by turning red after 15 days of admission and remain red until the screening reassessment has been completed. Catawba CC provided examples of initial screening assessments as well as re-assessments being completed on a sample of the Catawba CC intake population. Reassessments are also to be completed when warranted due to a referral, request, incident of sexual abuse or when in receipt of additional information that is relevant to the offender's risk of sexual victimization or abusiveness.

After reviewing agency policy and procedures, information obtained through staff and offender interviews, recent updates to the screening instrument, review of additional documentation and observations made during the onsite portion of the audit, this auditor finds the facility has taken appropriate corrective action to be fully compliant with all provisions of the standard.

The agency and facility make individualized determinations about how to ensure the safety of each offender based on data gathered from the risk assessment, information from medical/mental health screenings, additional records reviews, information obtained from the offender and observations made by staff. A transgender or intersex offender's own view with respect to his own safety is given serious consideration when making facility and housing placement decisions and programming assignments. A few areas that staff consider when assigning offenders is what is the specific housing area design, the level of staff supervision, presence of surveillance equipment and if an area is an isolated area. The policy does prohibit placing gay, bisexual, transgender or intersex offenders in dedicated housing units or wings solely on the basis of such identification or status. Reviews of offenders identified as high-risk abusiveness and identified as high-risk victimization is required to be completed weekly.</p> <p data-bbox="240 1518 1484 1845">The Catawba CC Case Managers are responsible for screening each offender that enters the facility. The Case Manager utilizes information in the offender's OPUS file to make decisions on housing, bed, work and other assignments to ensure each offender is safe while assigned to the facility. OPUS file information is obtained through information Case Analyst staff at the diagnostic center obtain and enter into the OPUS system. The system is configured to automatically calculate risk and identify offenders at high risk for sexual victimization and high risk for sexual abusiveness. A report can be generated that identifies offenders in each category for staff to review. Case Managers utilize information in the OPUS when reassessing the placement and programming assignments for each transgender or intersex offender at least twice each year in order to review any threats to safety experienced by the offender. The OPUS system automatically generates the standard required assessments and information within the OPUS system is limited to only those staff that need to know. After a review of offender files there was one offender identified as transgender that was assigned to the facility during the onsite audit.</p> <p data-bbox="240 1877 1484 2105">Interviews conducted with the Catawba CC PCM (Program Director) indicated that the facility would take into consideration on a case-by-case basis whether an offender's housing and program assignment would ensure the offender's health and safety and whether the assignment would present management or security problems. While conducting the onsite tour, the auditor toured housing, bed, work and program areas. Staff explained that offenders who are identified as HRV (high-risk for victimization) are placed in closer proximity to the staff in the housing units, and away from those identified as HRA (high-risk aggressor). Interviews confirmed that at intake, the results of the screening are used to determine housing and bed assignment.</p> <p data-bbox="240 2136 1497 2163">NCDPS-Prisons Policy F .3400 (Offender Sexual Abuse and Sexual Harassment, dated 8/12/19) states in part, "Transgender</p>

or intersex offenders shall be given the opportunity to shower separately from other offenders.” Interviews with the transgender offender, PCM and staff involved in the risk screening indicated that offenders that identify as transgender or intersex are provided the opportunity to shower separately from other offenders. At Catawba CC offenders identified as transgender or intersex are provided the opportunity to shower at separate times than the other offenders. The transgender offender denied being assigned to a dedicated housing unit. The transgender offender was complimentary of the staff at Catawba CC in regards to ensuring his safety and considering his opinions and input. Catawba CC was not under a consent decree, legal settlement, or legal judgement for the purpose of protecting lesbian, gay, bisexual, transgender or intersex offenders.

After reviewing agency policy and procedures, staff interviews, offender interviews and observations made during the onsite portion of the audit, this auditor finds this standard in compliance.

Ways of reporting incidents of sexual abuse and harassment include reporting to any departmental employee/volunteer/contract staff, utilizing the administrative remedy process (grievance), writing the PREA Office, to a third party-including family members, friends, and outside organizations, a local rape crisis center, and/or utilizing the toll-free number for reporting directly to an external agency/entity (Project Inmate Reporting Sexual Abuse). Additional signage provided contact information for Offender reporting, Family & Friends Reporting, Employee Reporting and Employee Responsibilities. One of the numbers is automatically programmed into the Offender Calling System as (*63). This number was called by the auditor during the onsite portion of the audit and the auditor was able to speak with an individual on the other end of the line and did not get a recording. Third party reporting can be made via email, phone or letter. When offenders arrive at the facility, they are provided a document that explains how to report incidents anonymously. An address was also provided for the Prison Legal Services and the PREA Office in Raleigh, NC. The offenders are also provided a PREA External reporting number as well as access to a Rape Crisis Center (Family Guidance Center). The auditor interviewed staff from The Family Guidance Center. privately report sexual abuse and sexual harassment of offenders. The ways for staff to report are defined in the policy and is also included on the Ways to Report posters that are prominently posted throughout all areas of the facility. The Ways to Report posters indicate that staff can report via their chain of command, sending an email or placing a call to the PREA Office, or contacting the NCDPS Fraud, Waste, Abuse or Misconduct Hotline.

Interviews with random offenders confirmed they were educated on how to report sexual abuse and sexual harassment utilizing the hotline numbers posted on each housing unit. Most offenders were aware of where to go to find reporting methods in their Orientation paperwork. Interviews with random staff confirmed they were all comfortable in reporting situations to their OIC and knew additional ways to report were on the posters.

The facility reported that there were no grievances alleging sexual abuse filed by offenders in the past twelve (12) months in which the offender declined third-party assistance, containing documentation of the offender's decision to decline.</p> <p data-bbox="240 1285 1465 1346">The policy also explains that an offender can submit a grievance without submitting it to the staff member who is subject of the complaint. The policy does not allow the grievance to be referred to the staff member who is subject to the complaint.</p> <p data-bbox="240 1379 1485 1671">NCDPS-Prisons utilizes a tiered grievance process. Policy requires that a decision be made within ninety (90) days (time period does not include time consumed by offenders in preparing any administrative appeal) on any portion of a grievance alleging sexual abuse and allows an extension of time to respond up to seventy (70) days. When an extension is requested, the offender should be notified in writing of the extension and provide a date when the decision will be made. Policy also requires that if at any level of the administrative remedy process, including the final level, the offender does not receive a response within the time provided for reply, including any properly noticed extension, the absence of a response shall be a denial at that level which the offender may appeal. The facility reported in the PAQ that there had been zero (0) grievance filed in the last twelve (12) months that alleged sexual abuse that reached final decision within ninety (90) days of being filed. None of these grievances required an extension.</p> <p data-bbox="240 1704 1465 1798">If an emergency grievance alleges that an offender is subject to substantial risk for imminent sexual abuse, an initial response should be provided within 48 hours and final agency decision be issued within 5 days. Catawba CC reported that there were no emergency grievances alleging substantial risk of imminent sexual abuse filed in the past 12-months.</p> <p data-bbox="240 1832 1465 1924">No reprisals are to be taken against any offender for a good faith use of or participation in the grievance procedure. The prohibition against reprisals should not be construed to prohibit discipline of offenders who do not use the system in good faith.</p> <p data-bbox="240 1957 1485 2148">Interviews with random offenders confirmed the multiple ways an offender could report allegations of sexual abuse or sexual harassment, submitting a grievance was one of those ways. The offenders explained the grievance boxes on the housing units. None of the random offenders interviewed had ever filed a grievance regarding an allegation of sexual abuse or sexual harassment but said other grievances they have filed were responded to well within the timeframes set out in policy. Random staff interviewed shared how an offender could place a grievance in the grievance box and assigned staff retrieved the contents of the mailbox.</p>

After reviewing agency policy and procedures, staff and offender interviews, and observations made during the onsite portion of the audit, this auditor finds this standard in compliance.

NCDPS policies and procedures prohibit retaliation against any staff or offender for making a report of sexual abuse as well as retaliation against a victim who has suffered from abuse. Requires multiple protections such as housing changes or transfers for offender victims or abusers, removal of the alleged staff or offender abusers from contact with victims, and emotional support services for offenders or staff who fear retaliation are available. Requires monitoring for a minimum of ninety (90) days, with periodic status checks, and provides protections for any other individual who cooperates with an investigation. The monitoring at a minimum will take place for a period of 90 days or longer, as needed. This monitoring would include offender disciplinary reports, housing and program changes, negative performance reports as well as reassignments of staff.</p> <p>The PCM confirmed that retaliation against staff or offenders making an allegation of offender sexual abuse or sexual harassment is prohibited. The PCM reported that he is charged with monitoring staff for potential retaliation against them and would document the information on the Staff (OPA-I22) form. The PCM confirmed also that there is one (1) PREA Support Person assigned to Catawba CC that are responsible for offender monitoring for potential retaliation. During an interview with PSP, she explained that the role of the PREA Support Person is to serve as an advocate to link services (community base advocates or mental health professionals) and support to offenders who report sexual abuse and sexual harassment by another offender, staff member, contractor or volunteer. Offenders are met with immediately and every other week thereafter for a minimum of 90 days and up to 180 days. Also, the policy contained information on post-allegation protective custody or guidelines for moving an offender to another housing area or another facility as a last measure to keep offenders who alleged sexual abuse safe and only until an alternative means for keeping the offender safe can be arranged. It allows for the temporary holding, less than twenty-four (24) hours, in involuntary segregated housing or in temporary protective custody only if the facility cannot conduct such an assessment immediately. If an offender is placed in restrictive housing, the offender is seen every seven (7) days by the mental health staff who documents the status. An "Administrative Restrictive Housing – Protective Custody" form is required to be completed when an offender is placed into the restrictive housing unit. There were zero (0) offenders who alleged to have suffered sexual abuse who were held in involuntary segregated housing in the past twelve (12) months for one to 24 hours awaiting completion of an assessment, that were assigned to restrictive housing for longer than thirty (30) days while awaiting an alternative placement.</p> <p>An interview with the Warden and the PCM indicated the facility does not have restrictive housing and if there was a result of an allegation being identified as a high risk for sexual victimization, the offender would be transferred to another facility. S .2300 (Sexual Abuse and Harassment, dated 4/20/2020) and Catawba Correctional Center Standard Operating Procedure Ch. S .2400 (PREA Coordinated Response Plan, dated 4/20/2020) requires that investigations into allegations of sexual abuse and sexual harassment, shall be conducted promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports. Policy also requires that sexual abuse and sexual harassment investigations shall be conducted by staff that has received special training in sexual abuse investigations. Interviews with Catawba CC Investigator confirmed their attendance at the NCDPS Specialized Investigations: Sexual Abuse and Harassment training. Catawba CC currently has one (1) staff who has attended the Investigator training. All alleged incidents of sexual abuse or harassment are referred to the local law enforcement office, Catawba County Sheriff's Department (CCSD) for criminal investigations. When an outside agency investigates sexual abuse, the facility shall cooperate with outside investigators and shall endeavor to remain informed about the progress of the investigation. The Investigator reported that they become the contact person for the Catawba County Sheriff's Department. In addition, staff refer all allegations of sexual abuse and harassment to the Regional Office and the NCDPS PREA Office for completion of an administrative investigation. The facility's PREA investigator could be assigned to conduct the administrative investigation. Allegations involving staff shall be reported to the Office of Special Investigation in accordance with NCDPS-SI-100 OSI Authority to Conduct Investigations Policy.</p> <p data-bbox="240 1518 1469 1778">Investigators shall gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data including video and/or audio recordings; shall interview alleged victims, suspected perpetrators, and witnesses. The Investigator should also review prior complaints and reports of sexual abuse involving the suspected perpetrator, included in the incident package and considered when determining credibility of the allegations. When the quality of evidence appears to support criminal prosecution, the Department of Public Safety sexual abuse and harassment investigators shall only be permitted to continue interviews after consulting with local law enforcement agency, who in turn, consults with local prosecutors, as to whether interviews may be an obstacle for subsequent criminal prosecution.</p> <p data-bbox="240 1809 1485 2069">The credibility of an alleged victim, suspect, or witness shall be assessed on an individual basis and shall not be determined by the person's status as offender or staff. Polygraph examinations or other truth-telling devices are not required as a condition for proceeding with the investigation of an allegation of sexual abuse. During the interviews with the Investigator, they determine the credibility of the subject of an interview depending on their ability to provide verifiable details that contribute to the veracity of their story. The more verifiable details they provide, the more it contributes to the veracity of their story. The investigator's questions need to also address things that only appear to be secondary to the line of questioning, but are key to establishing the credibility of their narrative. The Investigator explained they like to measure whether the subject's non-verbal indicators of truthfulness align with their verbal indicators that they are being truthful.</p> <p data-bbox="240 2101 1469 2161">The policies also require that investigations include an effort to determine whether staff actions or failures to act contributed to the abuse. Criminal Investigations shall be documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence with all documentary evidence attached where feasible. Substantiated allegations of conduct that appears criminal shall be referred for prosecution.

According to the PAQ, and verification from interviews with the PCM and investigator, confirm there were zero (0) substantiated allegations of conduct that appeared to be criminal that were referred for prosecution since the last PREA audit.

All written investigation reports will be retained as long as the alleged abuser is incarcerated or employed by the agency, plus five (5) years. The departure of the alleged abuser or victim from the employment or control of the facility or agency shall not provide a basis for terminating an investigation.

The policies require the facilities to offer follow-up treatment that may include screening, including follow-up care for sexually transmitted infections and other communicable diseases and any other counseling or assistance as requested. Requires treatment services to be free of financial cost regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident. Once an investigation has been completed and an offender has been determined to be an offender-on-offender abuser, within sixty (60) days, a mental health clinician will attempt to conduct an evaluation and offer treatment when deemed appropriate.</p> <p>Interviews with the medical staff confirmed that victims are offered a sexual assault assessment, individual counseling, referral to the psychiatrist, medications as ordered by the physician, laboratory testing for STD and HIV and follow-up. Victims of sexual abuse will be transported to Catawba Regional Medical Center to receive treatment and the physical evidence can be gathered by a certified SANE. The mental health staff interviews indicated their plan for services would include individual or group treatment, including trauma resolution and PTSD, as well as follow-up. Also, the mental health staff would conduct mental health evaluations of all known offender-on-offender abusers and offer treatment services within fourteen (14) days. Mental health staff also reported that all offenders receive a mental health evaluation during their first few weeks at the facility.</p> <p>Sexual abuse victims will be considered for referral of continued care at release from custody, in accordance with policy, NCDPS-Prisons Health Services Policy and Procedure CC-8 (After Care Planning for Offenders in Healthcare Services, dated 11/30/2007).</p> <p>After reviewing agency policy and procedures, staff interviews, information obtained through documentation review and observations made during the onsite portion of the audit, this auditor finds this standard in compliance.</p> <p>Corrective Action:</p> <p>None</p>

115.43 (a)	Protective Custody	
	Does the facility always refrain from placing inmates at high risk for sexual victimization in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers?	yes
	If a facility cannot conduct such an assessment immediately, does the facility hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment?	yes

115.43 (b)	Protective Custody	
	Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Programs to the extent possible?	yes
	Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Privileges to the extent possible?	yes
	Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Education to the extent possible?	yes
	Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Work opportunities to the extent possible?	yes
	If the facility restricts any access to programs, privileges, education, or work opportunities, does the facility document the opportunities that have been limited? (N/A if the facility never restricts access to programs, privileges, education, or work opportunities.)	na
	If the facility restricts access to programs, privileges, education, or work opportunities, does the facility document the duration of the limitation? (N/A if the facility never restricts access to programs, privileges, education, or work opportunities.)	na
	If the facility restricts access to programs, privileges, education, or work opportunities, does the facility document the reasons for such limitations? (N/A if the facility never restricts access to programs, privileges, education, or work opportunities.)	na
115.43 (c)	Protective Custody	
	Does the facility assign inmates at high risk of sexual victimization to involuntary segregated housing only until an alternative means of separation from likely abusers can be arranged?	yes
	Does such an assignment not ordinarily exceed a period of 30 days?	yes
115.43 (d)	Protective Custody	
	If an involuntary segregated housing assignment is made pursuant to paragraph (a) of this section, does the facility clearly document: The basis for the facility's concern for the inmate's safety?	yes
	If an involuntary segregated housing assignment is made pursuant to paragraph (a) of this section, does the facility clearly document: The reason why no alternative means of separation can be arranged?	yes
115.43 (e)	Protective Custody	
	In the case of each inmate who is placed in involuntary segregation because he/she is at high risk of sexual victimization, does the facility afford a review to determine whether there is a continuing need for separation from the general population EVERY 30 DAYS?	yes
115.51 (a)	Inmate reporting	
	Does the agency provide multiple internal ways for inmates to privately report: Sexual abuse and sexual harassment?	yes
	Does the agency provide multiple internal ways for inmates to privately report: Retaliation by other inmates or staff for reporting sexual abuse and sexual harassment?	yes
