Governor’s Crime Commission’s Match Funding Requirement

*****NEW match training module coming soon to GCC’s website*****
Module 4: Match Funding

Terminal Objective
At the completion of this module, you will have thorough knowledge of GCC’s Match Funding requirements. You will learn how to calculate the acceptable forms of Match Funds and apply them to your project application in the Grant Enterprise Management System. Finally, you will receive guidance on how to request a Match Waiver if you are not able to meet the funding requirements.

1. Match Requirements
2. Calculating Match
3. Acceptable forms of Match
4. Applying Match to your Project
5. Match Waiver Request
Match Funding

- Portion not supported by Federal Fund
- Demonstrates strong base of financial and partner support for a project
- Subject to the same regulations and restrictions as federal funding.
Match Requirements

- Review the RFA
- Match Contribution %
- Applying Match: (ie. Volunteers/Materials/Equipment)
- Exceptions to Match requirement
- Match Waiver Policy

Cost Sharing or Match Requirement
Sub-recipients are required to contribute 20% of the total cost of each project and identify the source of the match and how match funds will be used. Match can be cash or in-kind, through donated goods and services such as:

- Volunteered professional or personal services whose value must be consistent with compensation paid for similar work in the program or with the rate found in the labor market in which the program competes;
- Materials/equipment whose value shall not exceed its fair market value;
- Space and facilities whose value shall not exceed the fair rental value of comparable space and facilities as established by an independent appraisal of comparable space and facilities in a privately-owned building in the same locality;
- Non-VOCA funded victim assistance activities including but not limited to, performing direct service, coordinating, or supervising those services, training victim assistance providers, or advocating for victims.

Volunteered services used as in-kind match should be justified by (1) the specific level of experience/expertise that the individual brings to the specific project, and (2) evidence that the individual has been paid a comparable rate for this specific service.

Exceptions to Project Match Requirement
Sub-recipients that are federally-recognized American Indian or Alaska Native tribes, or projects that operate on tribal lands, are excluded from the match requirement.

VOCA Match Waiver Policy
Waiver of the 20% match share may be requested by agencies unable to meet the requirement. The requests must be well justified and submitted as an attachment to the project application. At a minimum, GCC will consider:

- Practical and/or logistical obstacles to providing match (e.g., public agencies that do not engage in private fundraising and may have limitations on soliciting contributing funds);
- Local resource constraints (e.g., rural community with limited local funding availability or volunteer capacity);
- Increases to VOCA funding where local funding availability has not increased to the same degree;
How do you determine your required Match??
Calculating Match

- Determine project’s total budget.
- Then, apply match rate

$1M \times 20\% \text{ match} = $200K

- Know your full project cost!
