AUDIT FINDINGS

Narrative:

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-audit, on-site audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Prison Rape Elimination Act (PREA) audit of the Wake Regional Juvenile Detention Facility in Raleigh, NC., was conducted on June 17-18, 2021, by Jack Fitzgerald, US DOJ Dual Certified PREA Auditor. Mr. Fitzgerald completed the audit as an agent of DX Consultants of St. Petersburg, FL, who has a contract to provide the North Carolina Department of Public Safety (NCDPS) auditing services. The North Carolina Department of Public Safety encompasses multiple departments. The agency's mission statement is "Safeguard and preserve the lives and property of the people of North Carolina through prevention, protection, and preparation with integrity and honor. " The state website goes on to state "DPS employees supervise offenders in prison, in juvenile detention centers, and in community supervision. State troopers enforce North Carolina highway laws, Alcohol Law Enforcement special agents investigate and enforce alcohol, lottery and tobacco laws, and Emergency Management personnel help plan for and recover from man-made or natural disasters." DX Consulting worked with the NCDPS PREA Office throughout the audit process in addition to work with the individual facility. The audit began with the notification of the onsite audit was posted by May 4, 2021, six weeks prior to the date of the onsite audit. The facility's last PREA audit was in 2018. The posting of the audit notices both English and Spanish versions was verified during the tour and verified by photographs provided in advance in the OAS and verified on site visually and through interviews. The audit notices explained correspondence would be treated as legal mail to ensure confidentiality and privacy. The photographs indicated notices in both English and Spanish versions were posted in various locations throughout the facility, including the lobby, visitation area, and housing unit. The Auditor did not receive any communication from the staff, residents, or other interested parties as a result of the posted notices. The Auditor told the facility leadership the notices must remain up until the final report is issued. The NCDPS PREA Office and the facility had decided to complete the Audit in the On-line Audit System (OAS). With the new process of the OAS the Auditor received access to information about 3 weeks prior to the site visit. The Auditor completed a documentation review using the Pre-Audit Questionnaire, policies, procedures, internet research, and supporting documentation for all standards. After completing the initial review, the Auditor provided a summary of questions for clarification and request for additional documentation. The OAS information provided was primarily placed in the initial indicator for each standard. Prior to receiving the OAS access the Auditor and the NCDPS PREA office arranged a video call during which information was shared on randomization of staff and client files to be reviewed as well as what to expect during the audit site visit. During the post-audit period, supporting documents not provided in advance or reviewed during the onsite visit were upload to the OAS. The onsite audit was conducted on June 17-18, 2021, at the Raleigh, NC juvenile justice facility. An entrance briefing was conducted with the Facility Director Johnathan Manly, WRJDC PREA Compliance Manager Maurice Fairley, and NC Department Juvenile Justice's Facility Operations Standard Manager, Brandy Farrell. During the entrance briefing, the audit process was explained, and a tentative schedule for two (2) days to include conducting interviews with the staff and residents and reviewing the documentation. A complete guided tour of the entire facility was conducted, including a secure lobby area, administrative area, dining room, Dayroom/school area, Kitchen, and a tour of bedrooms and bathrooms as well as outdoor recreation areas located off each unit. The facility's central dining space was used by the Auditor as a interview space. During the tour, residents were observed to be under constant supervision of the staff. Residents were in school/ housing unit, outside recreation or their rooms. Notification of the PREA audit was posted in all locations throughout the facility as well as postings informing residents of the telephone numbers to call and report sexual abuse and sexual harassment and to call the victim advocate for emotional support services. Each unit also had envelopes to aid in the communication of residents' concerns, including PREA. Clients can put sealed communication that can go to internal staff or external addressees including to the Director of Juvenile Justice for NCDPS, the NCDPS PREA Office and the Department of Social Services (DSS), the identified external agency that can receive PREA reports. The Auditor reviewed the unit logbook containing PREA related documentation (unannounced rounds and opposite gender announcements). The Auditor observed camera locations and the location of the showers on each unit. There were no cameras installed in the bathroom/shower area, so residents are not seen on the surveillance system while showering or toileting. The facility has a mix of 24 single person wet rooms with institutional toilet/sink units. Each room had a magnetic privacy flap for their window. The Director was able to point out locations and discussed how the facility maintains lines of sight. During the two (2) day onsite visit, there were a total of twenty-two (22) residents in the facility of which 3 were females. Fourteen (14) residents were selected for interviews but one was released on the first day. The Auditor received a resident list provided by the PREA Compliance Manager for the interview process. Of the 22 residents only one was identified as meeting any of the targeted populations. The facility did not have any residents identified in the required categories i.e., physical disability (Blind, Deaf or Hard of Hearing); zero individual who were Limited English Proficient (LEP). Zero residents identified as Lesbian, Gay or Bi-sexual and none identified as Transgender or Intersex. There were also zero residents with a cognitive disability and no resident who had been in isolation for fear of sexual abuse. None of the current residents reported sexual abuse at WRJDC and one who reported prior sexual victimization hx during risk screening. All resident interviews indicated they were well informed of their right to be free from sexual abuse and sexual harassment and how to report sexual abuse and sexual harassment using several ways of communication such as trusted staff, administrative staff, the hotline, to DSS and the grievance process. Also, random file reviews of medical, mental health, and resident records and additional documentation were completed as well. The facility had binders with organized information for the Auditor to review onsite. staff were formally interviewed, including (13) staff from all shifts (total supervisory and floor staff to work on the two days) Facility Director; PREA Compliance Manager; (1) retaliation; (1) investigator; (1) medical staff; (1) mental health staff; (1) human resources; and ; (1) risk screening staff/ intake were interviewed during the two (2) days of the onsite visit and several days after the

onsite visit. The interviews with staff and residents were completed in a private space that allowed for social distancing. All individuals wore masks during the process. Overall, the interviews revealed the staff is knowledgeable of the PREA standards and were able to articulate their responsibilities and their mandated duty to report. As part of the audit process, the Auditor completed outreach to state and community agencies to further determine compliance, confirm relationships and determine the availability of resources. There is evidence of the Wake Regional Juvenile Detention Center obtaining a Memorandum of Agreement with InterAct a local rape crisis organization. The Auditor contacted the WakeMed Hospital in Raleigh who provides SANE-certified emergency service and forensic medical examinations at no financial cost to the victim. The hospital and the RCC representatives confirmed they had no reported history of claims of sexual abuse at Wake Regional Juvenile Detention Center. The representative of the InterAct confirmed they can do accompaniment services at the WakeMed Hospital.

At the end of the second day, an exit briefing with a summary of the findings was conducted with the Eastern Regional Director: Stanley Melvin, and Facility Director Manley. and due to Covid 19 restrictions other Central Office staff including Facility Operations Standard Manager and the PREA Office staff participated remotely on teams call. At the exit debriefing, the Auditor gave an overview of the audit and commented on the onsite observations, interviews, and summarized the strengths and weaknesses after completing the Pre-Audit and Onsite Audit phases. The Auditor explained the process for determining compliance which considers information in policy, interviews, and observations in determining compliance. Since not all documents had been upload to the OAS, discussions were had with steps needed to prove compliance. The Auditor also provided notice on the topic area which corrective action needed to be taken. The issue discussed briefly at the out briefing was the need for the agency to ensure that child abuse registries were consulted as part of the employment process. The issue came to light in the Auditors review of other Juvenile DPS facilities earlier this year. The Auditor was informed about the efforts being made across different government agencies to ensure a process can be put into place to rectify this oversight. Since the final solution and evidence of the corrective steps have not been provided, the Auditor must issue an interim report until sufficient evidence can be reviewed to support the institutionalization of a process. The NCDPS worked with NCDHHS to come into compliance during the corrective action period. The information and on the steps taken is in 115.17 (c) and the compliance determination.

AUDIT FINDINGS

Facility Characteristics:

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate or resident population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

Wake Regional Juvenile Detention Facility (WRJDC) is a twenty-four (24) bed secure facility for male and female who are required to be held for juvenile court. The facility is governed by North Carolina Department of Public Safety (NCDPS) located in Raleigh, North Carolina. The facility is located in a industrial park area northeast of the city. As stated, the facility houses female and male pretrial residents. The facility was built with good sightlines with two large central space surrounded by 12 possible beds. The facility has all (24) single-person wet bedrooms. The facility's physical plant is a single-story structure with a fenced secured area for outdoor recreation at the end of each unit. There is a secure entrance/lobby area with offices, intake/medical area, and the Director's office. A supervisor office is located in what appears to have been a control office at one time overlooking both housing units.

Most activity including education, house meeting and passive recreation occurs in the interior dayroom. The population during the COVID-19 pandemic has been reduced resulting in a 12-month average of 13 residents. Each side of unit has a bathroom with two showers. The WRJDC does not use this as isolation. The facility has an electronically controlled door system but does not use the centralized control area. The facility has 24 cameras, but they are only monitored in the administrative area. Juvenile Detention Centers are hardware secure facilities that provide education and treatment services while juveniles await placement or release as determined by the court. The average length of stay in the facility in the year prior was about Thirty (30) days with 231 admissions in the last year. The residents interviewed by the Auditor varied in their experience, from one who for which this was his first admission to tother who have had multiple JDC admissions. Residents have full access to medical and mental health services on site. The medical staff consists of registered nurses and a provider who are on site three multiple times per week. Medical staff can come in more frequently as needed or as required to complete admission assessments. The facility also has qualified mental health professionals five days per week or on call. Medical and Mental Health practitioners are on call 24 hours per day. Medical staff report medical autonomy if a youth needs to go to the local hospital of emergent or specialized care. Psychological assessment and treatment services are provided utilizing individual work to those in need to address mental health needs in the context of a short-term pretrial setting. The facility has trained staff in the completion of the PREA screening tool and residents with mental health concerns or who score as potential victims or perpetrators of sexual offenses are also referred to mental health. Residents support the values of what skills they learn in the mental health area and feel they can approach them with any concerns, including issues around sexual misconduct. The food personnel staff at the facility provides each resident with hot home-cooked meals and snacks on a daily basis. There are no students working in the kitchen or other areas at WRJDC. The facility has a staffing pattern that supports a high level of supervision and supportive interventions for residents. The facility is run by a Director. The custody staff are called Youth Services Behavioral Specialist (YSBS) or Youth Counselor Technicians (YCT). The YSBS and YCTs are supervised by Youth Center Supervisors. The residents participate in an individual education program that is designed for them. WRJDC employs state-certified teachers who provide an educational program during the week in order for residents to maintain their grades and the continuity of care upon return to their community schools. The program is designed for residents to have the opportunity to make educational gains, including being prepared to graduate high school. The Teacher tries to promote their progress while also alerting the team as to those with comprehension or language concerns. The facility has agreements with a local rape crisis agency and a local hospital that can provide SANE services. InterAct is the program identified to provide confidential emotional support to residents who are victims of sexual abuse at the facility. WakeMed Hospital (SANE certified) provides emergency and forensic medical examinations at no financial cost to the victim. The facility has access to trained criminal investigators of sexual offenses through the Raleigh Police Department. The facility and NCDPS has trained individuals to complete administrative investigations in sexual abuse and sexual harassment allegations.

AUDIT FINDINGS**Summary of Audit Findings:**

The OAS will automatically calculate the number of standards exceeded, number of standards met, and the number of standards not met based on the auditor's compliance determinations. If relevant, the auditor should provide the list of standards exceeded and/or the list of standards not met (e.g. Standards Exceeded: 115.xx, 115.xx..., Standards Not Met: 115.yy, 115.yy). Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Number of standards exceeded:	1
Number of standards met:	42
Number of standards not met:	0

The Auditor did find one element having been exceeded (115.365.) The facility has not had a lot of PREA cases and as a Division the Juvenile Justice portion of NCDPS has it's facilities run mock PREA incidents so staff can learn about the expectations and how to coordinate with in the agency and with community providers..

Standards

Auditor Overall Determination Definitions

- Exceeds Standard
(Substantially exceeds requirement of standard)
- Meets Standard
(substantial compliance; complies in all material ways with the stand for the relevant review period)
- Does Not Meet Standard
(requires corrective actions)

Auditor Discussion Instructions

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The North Carolina Department of Public Safety has developed an agency wide policy on efforts to ensure compliance with the Prison Rape Elimination Act (PREA). The 30-page Juvenile PREA policy was written to address the various requirements of the standards. Page three of the policy sets forth the zero-tolerance condition, and this initial portion of the policy defines sexual misconduct consistent with the federal terms in PREA. "The North Carolina Department of Public Safety is committed to a standard of zero-tolerance of sexual abuse and sexual harassment of persons under its supervision. Therefore, it is the policy of the Department of Public Safety juvenile justice serving sections/units to provide a safe, humane, and appropriately secure environment, free from the threat of sexual abuse and sexual harassment of juveniles, by maintaining a program of prevention, detection, response, investigation, and tracking." The policy states there is no consensual contact between residents and staff or between residents. It further identifies screening, education, and monitoring, along with other elements that supports prevention, allows for detection, and ensures a full legal and medical response to any complaint.</p> <p>The facility staff showed knowledge consistent with training materials about their role in preventing, detecting, and responding to sexual assault claims. Staff also are provided with reminder cards at training about the importance of a zero-tolerance environment and their roles as first responders to sexual assault allegations. Random residents reported a PREA safe environment and a zero-tolerance culture.</p> <p>Indicator (b). Wake Regional Juvenile Detention Center is one of ten Juvenile facilities run by the North Carolina Department of Public Safety (NCDPS). The agency also runs 55 adult facilities, including high-security institutions, medium and minimum-security prisons. The Agency has a PREA Office with a Director and three staff that oversee the agency's compliance efforts across the numerous facilities. DPS policy clearly supports the PREA Coordinator's role in working with agency leadership and the various facilities. The Auditor was provided an agency flow chart showing the relationship between the PREA Coordinator who works in the North Carolina Department of Public Safety Central Office and DPS Juvenile Justice leadership. The Wake facility management knows PREA Office staff. The PREA Coordinator reports to the</p>

Deputy Secretary of DPS in charge of Professional Standards, Policy and Planning. PREA Coordinator reports she has considerable access to senior agency leadership. Working in the portion of NC DPS that oversees Standard compliance and policy allows the PREA Coordinator (PC) to influence policy development consistent with standards.

Indicator (c). The NCDPS Juvenile PREA Policy defines the PREA Compliance Manager's (PCM) role in the institution. The Policy states, "Each center will have at least one (1) trained PCM with sufficient time and authority to coordinate efforts to comply with PREA standards. The PCM and an alternate will be designated in writing by the Center Director on the OPA- A16 form." Form OPA-A16 which designates the PCM was provided to support the role of the PREA Compliance Manager at Wake Regional Juvenile Detention Center. Interview with the facility Director supports the PCM has sufficient access and ability to influence policy and procedures toward ensuring PREA compliance. By naming and training a backup person the facility ensures continuity if a person is on vacation when the PCM is away from the facility for any extended period such as a vacation.

Compliance Determination:

The North Carolina Department of Public Safety has policies that define the steps taken to prevent, detect, and respond to sexual abuse and sexual harassment incidents. Agency policy defines the roles of the state PREA Coordinator and the facility PREA Compliance Manager. Interviews with the Agency PREA Coordinator and Wake Regional Juvenile Detention Center PREA Compliance Manager confirm their roles to ensure PREA compliance is maintained. Residents in the facility knew they could call the PREA Hotline as an option or ask to speak with the PREA Compliance Manager or the facility Director. The PREA Coordinator and PREA Compliance Manager believe they have the capacity in their jobs to advocate for policy or procedural changes needed to support resident safety. All new DPS employees are educated on PREA and the NCDPS zero tolerance stance at hire even if they do not work in an institution.

Compliance was determined considering multiple factors. The supporting documentation included agency and facility management charts showing PREA positions. Interviews with the representative of the agency head and the Wake Director support compliance with all standard expectations. Agency policy described in depth the agency expectation to protect, detect and respond to sexual misconduct. The policy also clearly defines the roles of the state PREA Coordinator and the PREA Compliance Manager in each facility to support this cause. The policy also addresses prohibited behaviors and sanctions for any forms of sexual misconduct. In formal interviews residents confirmed that sexual misconduct is addressed, and they had knowledge of resources available if a concern arises. The signage about PREA was plentiful and presented in a kid friendly manor. The facility has been able to maintain a safe environment where residents report violent sexual assault is not a concern. Discussions with advocacy organizations further support access to the facility and the PCM. The Auditor was informed that the NCDPS PREA office staff in non-pandemic periods perform site visits to all facilities within their respective catchment areas and regularly participate in monthly and quarterly Juvenile Justice meetings.

The North Carolina Department of Public Safety currently does not utilize step down facilities to house juveniles under court ordered supervision.</p> <p>Compliance Determination</p> <p>The PREA Compliance Manager and the PREA Coordinator confirm the agency does not contract for Juvenile Services. Since neither indicator applies, the Auditor determined compliance based on discussion with the Agency Head representative and the PREA Coordinator, both of whom were aware of when contracting for beds there is an expectation to ensure the facility is PREA Compliant and there should be a requirement for ongoing monitoring.</p>

115.313	Supervision and monitoring
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Policies and written/electronic documentation reviewed.</p> <p>Wake Pre-Audit questionnaire</p> <p>Juvenile Justice Facilities Sexual Abuse and Harassment Policy and Procedures</p> <p>Annual Review meeting documents</p> <p>PREA Office Audit Report</p> <p>Logbook entry's supporting unannounced rounds</p> <p>Management Unannounced rounds</p> <p>Individuals interviewed/ observations made.</p> <p>Interview with Facility Director</p> <p>Interview with PREA Coordinator</p> <p>Interview with PREA Compliance Manager</p> <p>Interview with Supervisory Staff</p> <p>Observation on tour of logbooks and Supervisory movement</p> <p>Observation of office space in proximity of residents</p> <p>Discussions with housing unit staff</p> <p>Interview with Residents</p> <p>Summary Determination</p> <p>Indicator (a) The North Carolina Department of Public Safety has created a document that outlines the requirements of what should be considered in determining a staffing plan that considers PREA safety. Agency policy requires, "Juvenile Facility Central Office shall submit annual staffing plans to the PREA Office. The report must include staffing reports and any deviations from the required ratios. Additionally, the Central Office shall assess, determine, and document whether adjustments are needed to 1. The staffing plan; 2. Prevailing staffing patterns; 3. The center's deployment of video monitoring systems and other monitoring technologies; and 4. The resources the center has available to commit to ensure adherence to the staffing plan."</p> <p>The PREA Office has worked with the facility to document the elements of the standard. The Auditor reviewed the staffing plan that protects residents against sexual misconduct. The various elements to be considered in developing a plan include generally accepted juvenile correctional practice, frequency of sexual assaults/complaints, population makeup of the units, and how video monitoring can support safety. The WRJDC's Staffing plan is four pages long and documents the elements required in indicator (a). The plan provides the reader with the information used in determining the number of assigned staff as required in indicator (a). The facility capacity is 24 residents in 2 units, but the Juvenile population average for 2020 was 13 residents. With the agency's effort to provide social distancing during the pandemic, the current population was down to 12 youth with no females during the site visit. Included in the document was information on the frequency of PREA complaints, the risk level of the population, the client population's mental health profile, and the technology that has been put in place to aid supervision. The information included the assignment of custody staff and supervisory staff. The report accompanied the staff assignment schedule, which also outlines the placement of staffing to ensure ratios are maintained. Interviews with the Director and the PREA Compliance Manager describe the development process used in the completion of the annual assessment of staffing. The Director confirmed the report's statement of no judicial, federal or oversight body's findings of inadequacies. The facility has maintained staffing throughout the COVID-19 crisis.</p>

Indicator (b). The staffing plan for the Wake Regional Juvenile Detention Center allows the management to adjust the deployment of staff as needed and in response to critical positions. When staff call out there is an ability to mandate staff to ensure the overall safety of residents. The WRJDC is small two unit facility with an open floor plan allowing for direct supervision of residents out of their rooms. Documentation was provided to the Auditor, informing me there were no instances where the supervision minimums were not maintained in the past three years. The Director and supervisory staff confirmed that at no time has the facility run a shift under the minimum staffing compliment. Residents support staff are always available to them and did not voice a concern about a lack of staffing at any time. The second portion of the indicator is Not Applicable as there were no deviations from the plan's minimum requirements.

Indicator (c) The Wake Regional Juvenile Detention Center maintains a minimum custody staffing ratio of one staff for every eight juveniles during waking hours and one juvenile for every sixteen juveniles on the overnight periods. NCDPS PREA Policy requires, " Each center director shall maintain staff ratios of a minimum of 1:8 during resident waking hours and 1:16 during resident sleeping hours, except during limited and discrete exigent circumstances, which shall be fully documented. Only certified staff shall be included in these ratios." The Auditor also confirmed the facility would never operate with one staff on the overnight even if the population was less than 16 residents. The facility documents both the population and the custody staff working the shifts in the master logbook. This document also shows all callouts or significant incidents that would impact ratios. The Director confirmed that at no time has the facility run a shift under the minimum staffing compliment. The Auditor was able to review the staffing assignments for the day of the Audit and the posted schedule to ensure the ratios of 1 staff to 8 juveniles on the waking hours and 1 staff for every 16 on the overnight hours. The Auditor asked for and was able to review the staffing assignments for random dates leading up to the audit. These reports showed consistent assignment of staffing that exceeded the required ratios. Observations on the tour further supported that ratios are maintained.

Indicator (d) The Auditor was able to review documentation of PREA Audit preparations for a 2021 audit. The PREA Coordinator, Agency Head Representative and the facility Director each described in interview, various points of communication that occur during the year that could impact staffing and technology deployment. The WRJDC Director and PREA Coordinator approve the Staffing Plan annually and the most recent version was approved in 2021. The plan is descriptive of the population, the staffing to resident ratio expected in the unit on different shifts. The facility has had no PREA allegation in the past twelve months.

Indicator (e) The Auditor was provided with documentation to support routine unannounced rounds are made by supervisory staff. This is required by the agency PREA policy (page 13) and in documented logbooks. The Policy states, "Center Directors or designated supervisors will conduct unadvertised rounds monthly during all shifts to identify and deter staff sexual abuse and sexual harassment. The Director/designee shall document unadvertised rounds in the logbook and in a separate file/document dedicated to recording (person conducting, time, relevant notes) unannounced rounds. Staff members are prohibited from alerting other staff members that these supervisory rounds are occurring unless such information is related to the legitimate operational functions of the center." The Auditor was able to review logbooks during the tours. The Auditor confirmed that these tours do occur with the unit staff and Supervisors and that it is prohibited to notify coworkers of the tour. To further confirm the compliance, the Auditor requested evidence from a random selection of dates and corresponding log entries on several dates. Shift Supervisors at WRJDC are routinely on the floor or in direct visual to the two housing floors where resident and line staff would be interacting.

Compliance Determination:

North Carolina Department of Public Safety PREA policy, Juvenile Justice Facilities Sexual Abuse and Harassment Policy and Procedures, sets forth requirements of the staffing plan including the ratios as addressed in indicator (c), the requirements for documentations of staffing deviations, the requirement of unannounced supervisory rounds and the annual review of staffing needs. The Wake Regional Juvenile Detention Center has developed a plan in a narrative format that addresses the various considerations in indicator (a). The facility is not under any current judgement for inadequacy. The plan is reviewed annually with in-house administration and with the DPS PREA Office then, any request for staffing or electronic surveillance supports would go to DPS Juvenile Justice divisional leadership. Indicator (b) was not applicable as there were no instances where the minimum staffing levels were not maintained. During the tour, the Auditor recognized the facility was designed with good lines of sight and the Director's knowledge of potential risk areas. In addition to custody staff, the medical, mental health, and education staff provide an additional resource of information, supervision, and observation of resident's behaviors during the day. Supervisory staff routinely tour the facility and direct the assignment of staff during the shift. WRJDC also has management staff make off-shift visits to the facility unannounced. The standard is determined to be

in compliance based on policy, the documentation provided, interviews and observations made throughout the onsite audit, and documentation provided consistent with the standard.

Juvenile Justice Facilities Sexual Abuse and Harassment Policy and Procedures (page 6) prohibits cross-gender observation of any strip search or body cavity search of juveniles. It states, "The center shall not conduct cross-gender strip searches except in emergency circumstances, where other remedies are not available, or when performed by medical practitioners. Emergency situations shall be thoroughly documented in the logbook and approved by the Center Director". The NCDJJ Detention Services Policy and Requirements and Procedures states, (page 11) "Only a staff member of the same gender as the juvenile being searched may perform a strip search, and only in an area that protects the privacy and dignity of the juvenile." The policy goes on to state body cavity searches must only be completed only with probable cause and only at an off-site medical facility. A memo from the agency's PREA Office mirrors this expectation. The Wake Pre-Audit Questionnaire stated no such emergencies have occurred at WRJDC and this was further confirmed through interviews.</p> <p>Indicator (b) Wake Regional Juvenile Detention Center does not perform cross-gender pat searches except in exigent circumstances. Pre-Audit Questionnaire and interviews confirmed that this has not occurred. Staff were able to state the expectation of the policy, "The center shall not conduct cross-gender pat-down searches except in exigent circumstances. The center shall thoroughly document in the logbook all searches of juveniles and include the gender of the juvenile and staff member". The staff and residents also confirmed that this has not occurred.</p>

Indicator (c) As noted in indicators (a) and (b), policy requires documentation of cross-gender strip or pat searches of male and female residents, including the emergent reason for the search. The facility houses both female and male residents and appears to have sufficient staffing to further limit any reason for a cross-gender search to occur. Absent an occasion, the Auditor can only assess bases on policy, staff knowledge, and resident confirmation, the practice does not happen at WRJDC.

Indicator (d). NCDPS Juvenile Justice Facilities Sexual Abuse and Harassment Policy and Procedures states, "Staff shall ensure that residents shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia -- except in exigent circumstances or when such viewing is incidental to routine room checks." The Auditor observed that residents have magnetic sheets that are put over cell windows when the resident is using the bathroom or getting changed. All staff were observed knocking before looking in the rooms to allow for a resident to cover up. The shower areas are nearest where staff sit on each unit. One unit has both male and females. The opposite gender resident will not be on the floor while the youth are in the shower.

Policy further states "Staff of the opposite gender shall announce their presence when entering a resident living unit. In centers, staff of the opposite gender shall be required to announce their presence when entering an area where residents are likely to be showering, performing bodily functions, or changing clothing." The Auditor was able to see announcements being made at the beginning of the shifts. The size and staffing usually has one of each gender staff working the shift. Residents support that they are never required to be unclothed in front of opposite gender staff, and they confirmed that opposite gender staff announces themselves at the start of shift and knock before entering or looking in the bedrooms. At WRJDC, all of the 24 bedrooms are wet rooms and two shower per unit.

Indicator (e) NCDPS Policy and Memos from the agency PREA Office set forth the requirement that Transgendered individuals are not searched for the purpose of determining genital status. The policy states, "The center shall not search or physically examine a transgender or intersex resident for the sole purpose of determining the resident's genital status. If the resident's genital status is unknown, it may be determined during conversations with the resident, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner." As a JDC, the facility mostly takes direct admission from the community. Few youth are transferred in from other regions due to population management system or behavioral concerns. Shift Supervisors and Medical staff confirm if the resident was resistant to discussing the topic, they would be referred to the medical staff with whom they may be more comfortable in having the conversation. Medical staff confirms that they see all new admissions to the facility and would be able to have these conversations with the individual.

Indicator (f) The North Carolina Department of Public Safety trains all staff when completing the searches of transgender or intersex individuals that it be respectful, professional, and in the least intrusive practice possible for searching residents. All NCDPS Juvenile Justice staff are trained to routinely use the back of their hand instead of the front when completing pat searches. The training curriculum on safe searches provided addressed considerations when searching transgender or intersex residents. The facility also provided documentation of a training on working with LGBTI population that all but one new staff received in the past year.

Compliance Determination:

The NCDPS has a policy in place to address the various elements in this standard. The newest policies and staff training, as evident from interviews, supported compliance. The Auditor suggested a review of all policy language as older documents were inconsistent with current training and practice. The DPS policy directs staff consistent with the standards on pat search, strip searches, resident right not to be naked in front of staff of opposite gender and procedures for working with transgender and intersex residents. The Auditor also reviewed the New Employee manual section on cross gender supervision which was consistent with standard language. Supporting documentation for this standard included training records, training outlines, and policy. There were no transgender individuals with whom to discuss searches. Information confirming no exigent circumstance of cross gender searches has occurred at WRJDC in the past three years. Interviews with staff and residents supported compliance with standard elements and policy expectations. The Auditor also took into consideration the policy of the facility and the other named supporting documents. Absent any exigent circumstance, there were no incidents to review.

As a juvenile facility serving pretrial clients, it must assess and provide services to individuals with medical disabilities. Juveniles with hearing or visual difficulties would be supported by staff in understanding PREA until corrective medical measures would be put in place. The Facility documents these youth in a form for "exceptional children" WRJDC must also provide informative supports to those individuals with significant developmental delays or significant mental illness that might make them a target for abuse. Staff providing the individualized PREA education upon admission document the steps taken to ensure comprehension on the "exceptional children form and it is reviewed by the PREA Compliance Manager. The Auditor confirmed with residents that there were staff available to assist in understanding the postings or handbooks. There were no individuals who were hearing or visually impaired. The Auditor was able to speak to individuals who had developmental delays. These residents, with significant academic challenges, would be identified by the school staff at WRJDC's fully accredited educational environment. The PREA education video used in the facility was designed for Juveniles and is available in Spanish the second most spoken language at NCDPS Juvenile Facilities.</p>

Indicator (b) The Wake Regional Juvenile Detention Center has a limited population of individuals with whom English is not the primary language. There were no individuals in the population at the time of the site visit with whom the Auditor would have needed to use interpretive services. There was signage throughout the facility about PREA safety including posting in Spanish. The WRJDC facility only had limited use of interpretive services, and reportedly, it is for communication more often with the youth's family than with the youth themselves. The NCDPS has contracted with United Language Group for interpretive phone services. The Auditor was provided with a copy of the contract, information on services and reviewed the agency website. The PREA video use in NCDPS facilities is available in alternative languages.

Indicator (c) Documentation reviewed by the Auditor stated there were no instances where resident interpreters were used. Staff were aware that it was not appropriate to use residents to interpret for each other except in extreme emergencies. This prohibition is also addressed in the agency PREA which states, "The Department will not rely on resident interpreters, resident readers, or other types of resident assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the resident's safety, the performance of first-responder duties, or the investigation of the resident's allegations."

Compliance Determination

NCDPS PREA policy addresses equal access of services for those who have a disability or have limited English proficiency. The Auditor was able to speak with residents with cognitive disabilities but no individuals who were LEP or significantly disabled. WRJDC provides all residents with a video education about PREA upon admission. The primary video, available in English and Spanish, is "Expect Respect". In addition to the video, the facility has signage up on the units of how to report concerns. As a juvenile facility with a fully accredited school program, all youth are assessed academically, which will further identify impairments to understanding. The Auditor spoke with the youth's Teacher to get an understanding how information on reading comprehension and learning disabilities are communicated to the treatment team. There were no residents at WRJDC at the time of the audit that required translation services. The Auditor confirmed this through conversations with residents on tours, through random interviews with residents and staff. The residents reported knowing their rights, how to report PREA concerns and if they had difficulty in understanding information how to get help.

Staff were aware that it was not appropriate to use residents to interpret for each other except in extreme emergencies. Line staff knew to contact a supervisor if they needed to access an outside interpreter. Compliance was based on interviews with staff, residents, administration, and the hard materials (posters, handbooks, video) and policies that support equal access to all services. The educational materials seen repeatedly on the tour support ongoing access to information exists.

NCDPS strictly prohibits employment or contracting the services of individuals who have engaged in or have been convicted of engaging in or attempting to engage in or administratively be adjudicated for sexual assault. The agency utilizes the same language requirements for contracted employees. Interviews with Human Resource staff support the process of screening all applicants for employment or contracted and volunteer services at the Wake Regional Juvenile Detention Center. The Auditor reviewed the online employment application process, which requires potential candidates to confirm that they have not engaged in any form of sexual misconduct described in indicator (a). The application in form 005 requires applicant to confirm they have never engaged in prior sexual assault in a prison or jail, any attempt to engage in sexual activity by force in the community or through coercion or engagement with an individual who could not consent. The language on the form is Directly from the US DOJ Final Rule on the "National Standards to Prevent, Detect, and Respond to Prison Rape under the Prison Rape Elimination Act." The Auditor confirmed the questions are asked at the time of hire and promotional periods. The Auditor reviewed staff files, including individuals hired in the last year. The NCDPS has had the PREA questions as part of the employment applications since 2013. The Auditor was able to see, in the HR files reviewed, where the questions were asked of employees at hire, promotion, or annual reviews. Discussions with facility and agency leadership confirm individuals with prior histories described in this indicator would be prohibited from employment or contact with the offender population at an NCDPS facility. The Auditor also reviewed a list provided of 102 disqualifying charges that would prohibit employment at a DPS Juvenile Justice facility.</p> <p>Indicator (b). The North Carolina Department of Public Safety has a policy prohibiting sexual harassment at its facilities. Any such actions are required to be reported and would be the subject of a formal review. The finding of that review would become part of the staff person's record. Human Resources staff interviewed confirmed that a complete review of prior disciplinary actions would be part of the process when hiring or promoting a candidate. The facility has limited contracted</p>

employees but the agency completes prior institutional employment checks on both staff and contractor to see if there are any concerns related to sexual misconduct.

Indicator (c). The North Carolina Department of Public Safety completes criminal background checks on all employees. File reviews completed by the Auditor confirmed that the process is in place and is consistently done for all new employees and at the required 5-year intervals in indicator (e). The Check includes a criminal background check and prior institutional checks. The Auditor reviewed ten employee's background checks and three files of volunteers and contracted individuals for proof of background checks. Random sampling allowed for confirmation of the practice. At the time of the visit, the facility had not been completing checks of the state's child abuse registry. NCDPS Juvenile Justice Staff and the PREA Office worked with the state's Health and Human Services Division to create mechanisms to obtain the registry. The Auditor requested the documentation of the random staff selected as part of the corrective action period. NCDPS and the NC Department of Health and Human Services state agencies worked together during the corrective action period to ensure that no current staff appeared on a child abuse/neglect registry as well as to put in place a mechanism to obtain information for future employees. NCDPS and NCDHHS reviewed the standards to determine the most appropriate list for NCDPS to use. It was determined the most appropriate list is called the NC Child Maltreatment Registry. The Auditor was provided documentation confirming no individuals employed at this facility was on the list. The Auditor also received documentation from the NCDPS PREA Coordinator on how human resources will move forward in compliance.

Indicator (d). WRJDC, as stated in Indicator (a), completes criminal background checks on all contracted employees. The agency will provide documentation as part of the corrective action for checking child abuse registries. The NCDPS have been working on this issue with their counterparts in other state agencies to resolve the issue on accessing child abuse registry information as noted in indicator (c).

Indicator (e). WRJDC provided the Auditor with information of 10 random employees, including three individuals who were employed over 5 years who had criminal background checks completed in the last 5 years. The random sample was confirmed through a review of files onsite with the Human Resources staff.

Indicator (f). As noted in Indicator (a), all WRJDC employees are asked to complete the Employee Application, including questions required in indicator a). The employees, after hire, also complete a series of forms, including a DPS Employment Verification and a DPS Employment Statement. In both documents, the NCDPS has required the individual to confirm they have not engaged in any of the described activities listed in indicator (a). Staff is asked the aforementioned questions as well as create a continuing responsibility to disclose such misconduct. The form sets forth a continuing affirmative duty to disclose any such misconduct. All employees confirm by signature the requirement to report any violation of the prohibited acts described in indicator (a) within 24 hours of occurrence.

Indicator (g). All Wake Regional Juvenile Detention Center employees must disclose all misconduct allegations, and any material omission or false information regarding misconduct will be grounds for termination. The agency Employee Applicant form explains the failure to report criminal charges and convictions may be subject to termination. The Auditor reviewed information from background checks and confirmed that no individuals had been disciplined or terminated in the past year for falsification of information related to past sexual misconduct or criminal behaviors. In the Application for Certification DPS has the employee sign the following statement at the time of hire, the statement tells the employee that the condition exists throughout their employment with NCDPS. "I acknowledge that any omission, falsification, or misrepresentation of information or procedures, by either the candidate or this Agency, throughout the employment and/or certification process may result in certification being denied, suspended or revoked by the Commission at any time, now or later, and may result in sanctions against this Agency."

Indicator (h). The North Carolina DPS allows for the agency, with proper releases of information, to disclose to other institutions any PREA related concerns. Interviews with Human Resources staff confirm they make requests of both internal and outside employers when hiring, but they report they do not frequently receive similar requests for prior employees who go outside the NCDPS system.

Compliance Determination

The North Carolina Department of Public Safety has policies in place to address the requirements of the standard including the completion of background checks, and pre-employment screening that supports the agency's efforts to screen out predatory candidates from employment. The pre-employment screening process is the same as other law enforcement applicants in the state of North Carolina. The Auditor interviewed the Human Resources staff at the WRJDC. The facility's Human Resources staff work with regional Juvenile Justice Office staff to process candidates and obtain criminal background checks. The facility has all staff and contractors undergo the same criminal background checks as employees

The NCDPS has employees sign an acknowledgment form that addresses various elements of this standard. The Auditor was also able to review appropriate personnel forms and criminal background checks for both employees and contractors. Many of the elements are in place to ensure potential staff, contractors, and volunteers hired are not a risk to the youth at the JDC's service. One element required, which was not in place, was the review of child abuse registries for potential employees and contractors. After discussions with facility staff and the agency's PREA Office during a prior audit series, the state is in the process of putting in place a mechanism to check current and all future employees. The facility will provide the results of the child abuse registry checks for the previously chosen random staff. The PREA Office will provide a description of the changes made on an agency level to ensure the process is institutionalized.

As noted in indicator (c) the NCDPS worked with the NCDHHS to ensure moving forward all new employees will be screened to see if they are on the state's Child Maltreatment Registry. Documentation was provided confirming that all employees' names in the facility we compared against the states list with no one being identified. The Auditor has now determined all indicators are compliant and the standard is met.

The facility will call local law enforcement staff to complete criminal investigations. The facility will have a trained Investigator of sexual abuse report to the facility immediately to help determine if the case is potentially criminal in nature. The state of North Carolina trains SANE nurses to use the US DOJ National protocol for sexual abuse cases to ensure uniform steps are taken in obtaining physical evidence. WRJDC Medical staff would not complete the forensic exam. Instead, the resident victim would be sent, the WakeMed Hospital in Raliegh NC, approximately 5 miles from the facility. Agency policy states, "Upon receiving an allegation that a resident was sexually abused or harassed while confined at another center (to include agencies outside of DPS), the Center Director that received the allegation shall notify the Center Director or appropriate office where the alleged abuse occurred and shall also notify the DJJ Sexual Abuse and Harassment Policy and Requirements and Procedures (R&P) 11 appropriate investigative agency." The Policy goes on to require "The Center Director providing the notification shall document in TROI that the information was provided." TROI is were the states critical incident are uploaded for administrative review.</p> <p>Indicator (b) As noted in Indicator (a), North Carolina SANE nurses use the national protocol developed by the U.S. DOJ.</p>

The Auditor confirmed that the protocol is the guiding expectation along with information from the state sexual assault kits. Agency PREA Office staff confirmed that all Juvenile Justice facilities will take victims to hospitals with trained SANE nurses. The policy also speaks to the standard's expectation. "The acute medical evaluations shall be in full compliance with standards established through the "National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents." [U.S. Department of Justice; Office on Violence Against Women (September 2004)]. Per this standard, the alleged sexual abuse victim(s) shall be granted access to a Sexual Assault Nurse Examiner (SANE) at the designated acute medical evaluation center." Interviews with local hospital staff where forensic exams would occur confirmed there is a standardized practice used to ensure consistent evidence collection. The Auditor also reviewed Best Practices in the Criminal Justice Response to Domestic Violence and Sexual Assault: Guidance for CCR/SART Response Protocols and a well as reports from the state crime lab of evidence kit collection. The Best Practices in the Criminal Justice Response to Domestic Violence and Sexual Assault: Guidance for CCR/SART Response Protocols was developed with funding from US DOJ Violence Against Women Act. The undated protocol the Auditor reviewed references the 2013 "A National Protocol for Sexual Assault Medical Forensic Examinations: Adults/Adolescents: 2nd edition". A review of the document show support for a victim-based approach. The document provides guidance on communication with victims, evidence for law enforcement to consider at the crime scene, and it provides direction to medical staff on considerations and promotes the use of forensically trained nurses.

Indicator (c) The Wake Juvenile Detention offers victims of sexual assault the ability to have a forensic exam without cost. The Auditor confirmed that there is no cost for sexual assault exams. State statutes show the state's obligation to paid for examinations since 2009. Funds are provided through the North Carolina Crime Victims Compensation Fund. As noted in indicator b) the state's Nursing Board confirmed the availability of Sexual Assault Nurse Examiners. Local hospital staff who report funding for exams comes from a different fund within state government to ensure all victims come forward. Juveniles are guaranteed access to emergency services outside the facility which would include forensic exams.

Indicator (d) Wake Regional Juvenile Detention Center had an agreement with the local rape crisis agency to provide support services to victims of sexual assault. A copy of the 2020 MOU with InterAct was provided to the Auditor and he was able to confirm with the agency they are still willing to support youth at WRJDC who have been victims of sexual violence. The Auditor was able to see previous agreements which are renewed automatically unless the document is adjusted. Local Hospital staff confirmed the practice of also ensuring a rape crisis advocate is offered routinely as part of any forensic exams. Hospital representative of confirmed the InterAct can provide trained accompaniment. The NCDPS also trains staff who volunteer to serve as PREA Support Persons (PSP) on working with victims of sexual assault. Though they are not specifically trained in forensic accompaniment, they serve as a go to person for victims during and after the investigative process. The PSP will encourage the client to utilize the rape crisis center. The InterAct staff confirmed the MOU and the working relationship with the facility.

Indicator (e) Both hospital and agency staff confirm that a rape crisis staff would be available to help a victim through a forensic exam, criminal justice interview, and provide ongoing support and referral to the victim. The Auditor was able to confirm with the InterAct staff on their ability to do accompaniments for forensic exams and victim interviews. The PREA Compliance Manager confirm a willingness to work with local and state rape crisis agencies to build on experiences. During COVID-19 there has been less access to the facility but in the event of a sexual assault, it is believed they would be able to gain access to support victims of abuse. The Auditor was able to review the MOUs from the Hospital and the RCC supporting access of the InterAct for forensic exams. WRJDC residents confirm that they could have professional visits as support on-site. The rape crisis agency reports they are able to provide accompaniment services at the local hospitals during the recent months of the COVID-19 crisis.

Indicator (f) The WRJDC would have an investigation team from the Raleigh Police Department. come to the Regional Detention Center to complete a criminal investigation. The Agency will also notify the Department of Social Services who is responsible for investigations of abuse claims involving youth. NCDPS will assign an investigator to complete an administrative investigation from the Juvenile Justice facilities unless the alleged perpetrator is a staff person, then the agency's Office of Special Investigations will get involved.

Indicator (g) The Auditor is not required to review this indicator.

Indicator (h) NA- The Department of Public Safety offers all residents in the system access to rape crisis services. The Auditor received information on the training of Rape Crisis Advocates in North Carolina.

Compliance Determination

The North Carolina Department of Public Safety has put in place the necessary elements to ensure immediate response to allegations of sexual assault. The agency has trained its staff on how to preserve evidence until trained law enforcement staff can arrive. The state of North Carolina has in place the trained Sexual Assault Nurse Examiners available at the hospitals in the region, including the WakeMed Hospital in Raleigh. The review of several websites and interviews with staff confirm the utilization of a standard protocol for evidence collection in sexual abuse cases. The Auditor spoke with hospital staff who confirmed the availability of SANEs at WakeMed Hospital as did the Hospital website. Hospital staff confirmed this service would be done free of charge and if a SANE is not on duty they will attempt to call one in. It is also reported that a rape crisis agency would be called for victims of sexual abuse. Compliance is determined based on the availability of resources to effectively investigate, secure and process evidence. Also taken into consideration in this determination was the overall staff knowledge displayed in the random staff interviews of how to preserve evidence, including instructions to the resident involved. Absent an investigation at WRJDC the Auditor relied on information obtained in the DPS investigator's interview. The Auditor also took into consideration the role of the PREA Response Person developed by the NCDPS and the availability of local investigators training in investigating incident in locked settings. Finally, the Auditor considered the information available from state agencies, local law enforcement, non-profit victims advocacy organizations and the WakeMed Hospital.

The Wake Regional Juvenile Detention Center does not employ an individual with law enforcement credentials at JDCs so they will work with the local police/ sheriff's departments on any criminal investigation. WRJDC has not had a criminal or administrative investigation of PREA in the past year. The Auditor did not have any staff or juveniles report that they had made a PREA allegation in the past year.</p> <p>Indicator (b) The NCDPS has policy in place that addresses the requirements of this standard. The Policy also complies with NC State Statutes which govern law enforcement duties. "Upon receiving an allegation that a resident was sexually abused or harassed while confined at another center (to include agencies outside of DPS), the Center Director that received the allegation shall notify the Center Director or appropriate office where the alleged abuse occurred and shall also notify the appropriate investigative agency." Agency policy can be searched through the state website and all contact with outside law enforcement will be documented in incident reports and the facility logs. An incident report is required also to be entered into the agency incident portal TROI which would document the referral. The facility also has a PREA Incident checklist that will document the notification to local law enforcement and the facility investigator.</p> <p>Indicator (c) Agency PREA policy is descriptive of the relationship between the facility and the expected criminal investigators who come to the JDC. Pages 14-18 of Juvenile Justice Facilities Sexual Abuse and Harassment Policy and Procedures describes the expectations of the investigators and the facility in ensuring a thorough investigative process occurs. The Auditor also reviewed a document from the Head of the Department of Public Safety to all of the state law enforcement agencies on completing PREA related sexual abuse investigations. The Juvenile Detention Center investigates all incidents initially to determine if the allegation is criminal in nature. The Administrative Investigator reports that if any information is obtained during an administrative investigation, then the local criminal investigator would be called immediately. Compliance was determined based on the published policy, the investigative information provided by the agency staff. Compliance is determined utilizing the above stated information which meets the requirements of Indicators (a) and (b). Interviews further supported compliance in that the agency takes all allegations seriously and ensures the impartiality of staff-involved events.

All employees, no matter what role in the institution, are aware of their role in the prevention, detecting, and responding to sexual assault and sexual harassment of residents. Random staff were able to describe in the interviews how in their day-to-day job, they keep residents PREA safe. The staff members knew the signs and symptoms of someone who may be victimized, the rights of residents related to PREA and were able to give examples of why sexual assaults may occur. Staff persons confirmed they get training on how to avoid getting into undo familiarity with a resident, the criminal liability for failing to report a PREA incident, and how to respectfully work with LGBTI residents. The staff knew to use the transgendered or intersexed resident's preferred name and pronouns. Staff had knowledge that a multidisciplinary committee reviews transgender resident's case individually to determine housing, search procedures, hygiene accommodations and medical or mental health treatment planning. Staff were able to provide information on the 11 required elements of this indicator that they have been trained on. Policy states, "All employees shall receive initial instruction related to sexual abuse and harassment zero tolerance policy, the right for residents to be free from sexual abuse and harassment, the right for residents and staff to be free from retaliation for reporting sexual abuse and harassment, and how to avoid inappropriate relationships with residents. Training will also include dynamics and common reactions of resident sexual abuse and sexual harassment, effective and professional communication with residents including lesbian, gay, bisexual, transgender, intersex, or gender-nonconforming residents, and relevant laws regarding mandatory reporting and the age of consent." The Auditor also reviewed related training on how to maintain professional staff/client relations.</p> <p data-bbox="240 1843 1485 2002">Indicator (b) The Wake Regional Juvenile Detention Center works with both male and female juveniles. report ongoing training happens in a classroom setting as well as through the online learning platform. Staff records reviewed and the random staff knowledge of the training information indicators support they receive training frequently. The Auditor reviewed records on site and requested additional files uploaded to further support compliance with the indicator.

Indicator (d) Employees have to take an exam for which they receive a certificate for their Human Resources file. The Auditor also was able to see a training report used by facility administration to track employees completion of annualized trainings

Compliance Determination

All staff are trained in NCDPS's zero tolerance policies toward sexual assault and sexual harassment. The employees, contractors and volunteers sign off confirming they have been trained on PREA and understand policies. Staff files reviewed as part of standard 315.17 showed this documentation. The North Carolina Department of Public Safety has a training program for all staff related to the 11 requirements on indicator (a). New employees are first exposed to PREA training in the agency's Juvenile Justice Academy. Agency policy addresses the requirements of the standard, including the required areas of education found in indicator (a), the frequency of training and gender specific understanding of sexual victimization that is important for staff. All employees (including the contracted medical and mental health staff) have had an on-site training and understand the facility's Sexual Assault Response plan. Staff are provided visual documents posted in the facility like the Daily Dozen and Red Flags to reinforce the classroom experience.

All staff interviewed confirmed regular training on PREA. Random staff member interviews confirmed they were aware of the different aspects of the training presentations and were able to give examples of information provided. Staff responses support a clear education program where key elements have been reinforced and training information is retained. Training records and staff interviews further support that PREA related education of staff happens regularly. The Auditor confirmed the training dates of the staff including initial PREA training and most recent PREA education. Compliance determination was based on ten random training records, the material used in presentations and random staff ability to share examples of the content they had learned as part of PREA training consistent with standard requirements.

Though the agency has individuals on the approved list. The facility has state and contracted medical providers and a contracted Mental Health professional that are actively at the center. Contracted medical/mental health staff receive the same specialized PREA training as the DPS medical staff and the same general PREA training that all individuals at WRJDC receive.</p> <p>When volunteers are allowed they registered in the facility and those who have routine access to the facility are required to undergo an onsite education program on responsibilities and procedures for keeping a safe environment. As part of that program, the individuals are trained on PREA consistent with the agency policy which outlines training expectations to inform them how to support a zero-tolerance culture and knowing when and how to report concerns. They are provided a staff directed training class and received a volunteer brochure which address expectations related to PREA. The Policy also requires that volunteers are to sign annually that they understand PREA and their obligations.</p> <p>Indicator (b) The training as noted in indicator (a) includes three distinct levels of training which address how to report a PREA concern. Contracted staff providing direct services to residents undergo full DPS PREA training. Individual volunteers who have routine visits (religious staff, educational volunteers. etc.) get an abbreviated educational program. As noted, there are no current volunteers at WRJDC. All individuals entering the facility will have access to information on PREA and how to report a concern. The Auditor saw postings informing all visitors on PREA, the zero-tolerance stance of NCDPS, and how to report a concern.</p> <p>Indicator (c) PREA requires the facility PREA Coordinator to keep track of the training for all contractors or volunteers. The policy requires, "At a minimum, all volunteers must review and sign a PREA Acknowledgement Form (OPA-T10) annually. The application process will not be complete until the PREA Acknowledgement Form is signed and returned to the center/location. Forms shall be maintained at the center/location and be available for examination during the peer review process or DPS/Division audits individuals to sign for the information they receive." The Auditor was provided a sample of the PREA acknowledgment form that new volunteers sign after completing the training course. Those one-time volunteers sign in and receive a PREA brochure upon entrance to the WRJDC facility. The Auditor was able to see documentation showing</p>

this process in use prior to the pandemic.

Compliance Determination

The Wake Regional Juvenile Detention Center is compliant with the standard expectations. WRJDC ensures all contractors and volunteers receive training in the agency's efforts to prevent, detect and respond to sexual assault and sexual harassment. Training record of the Mental Health staff and formal interviews support they have received comprehensive training equivalent to their level of contact with the residents. Training records and interaction with contractors as part of the tour clearly support an understanding of the agency 'Zero Tolerance' to PREA related issues. Infrequent and one-time service contractors, who would provide services under the supervision of JDC staff, are given notice of PREA when they arrive at the facility including a brochure on PREA. Compliance was determined through supporting documents and interview with the contracted staff person who was able to identify training elements. The Auditor believe the facility is providing training to contractors and has systems in place to ensure volunteers will also be trained upon return after the pandemic.

Residents are provided a description of PREA and how to protect themselves, how to report a concern and what services are available if someone has been a victim. They are provided this information in the form of the DJJ Brochure, Rack Cards, postings in the facility and a video. The video "Expect Respect" was developed by the NCDPS and UNC Wilmington with funding from the US Bureau of Justice Assistance. The Auditor was walked through the admission process by mental health staff who act as intake staff, including the information the juvenile receives in the first hours at the facility related to PREA. In the year prior to the audit, 266 individuals were admitted, and all individuals were provided PREA education. New admissions receive PREA information during the intake, which includes information on protecting themselves and reporting PREA. The completion of PREA education is documented electronically in the facility's case management system and the residents sign a form acknowledging the education. Residents confirmed getting PREA materials at intake. The educational material on PREA is presented in an age-appropriate manner.</p> <p>Indicator (b) All residents at Wake Regional Juvenile Detention Center are provided with a review of the facility specific PREA information with their Juvenile Program Specialist in the first few days in the facility. During this meeting, PREA reporting information is reviewed, including how to protect themselves, how and why it is important to report, how they will not get in trouble for reporting and how they will be protected from retaliation. The Auditor was provided with documentation showing 100 percent compliance with the timeliness of PREA education within ten days. Interviews with intake staff, case management staff, and residents further support the education of residents in a timely and age-appropriate manner. The video provided to residents has previously been reviewed by the Auditor at another DJJ facility. The residents report the Facility Director provided the PREA training.</p> <p>Indicator (c) All residents at Wake Regional Juvenile Detention Center have received an education into PREA. The Auditor also spoke to residents and reviewed case files to confirm education dates against the provided documentation. Three of the thirteen current residents interviewed had been transferred in from other DJJ facilities who also confirmed getting trained on PREA.</p>

Indicator (d) Education is available in multiple languages and forms from written to video to large print documents. Videos are provided in English and Spanish the most spoken languages in the Department of Public Safety. Wake had no residents at the time of the onsite visit that could not speak English. Language line services are available as noted in standard 115.316. Residents support that they can go to staff if they need assistance in comprehension of written or oral PREA education. The facility has a full school environment so individuals with comprehension issues will be identified. The assistance is available to any individual who needs assistance including those with physical disabilities, cognitive limitations or those who cannot read. The Auditor did see postings at WRJDC in both English and Spanish the two languages most spoken at the facility.

Indicator (e) Records were reviewed for a random sampling of 10 clients along with a full report of the previous year's admissions. The documentation reviewed confirmed education of residents is tracked by the facility.

Indicator (f) Observations throughout the tour support there are continuously materials available to residents. The information viewed included handbooks, posters, and other signage about PREA or resources such as the local rape crisis agency. The facility reportedly runs PREA classes one to two times in the two-week period depending on when intakes occur.

Compliance Determination

The North Carolina Department of Public Safety PREA policy sets forth the expectation of the timeliness of resident education, the manner in which education is delivered, and the requirement for materials for LEP and disabled resident's education. Residents at WRJDC confirm they are educated on PREA and the zero tolerance expectations as soon as they get to the facility. The facility reviews information with the residents on the zero-tolerance expectation toward sexual abuse, how to keep oneself safe and how to report a concern. Residents confirmed they are provided such information. The information reviewed is signed by the resident and placed in their case record. The facility has PREA educational materials available to residents in the form of videos, brochures, Respect rack cards and posters in addition to the handbook.

Information in the written document seen on the tour includes phone numbers to state PREA Coordinator, how to report to an outside agency (Department of Social Services) and the local rape crisis agency. Compliance determination considered the supporting educational documents, the thirteen residents' answers about education and their knowledge about facility specific steps for reporting a concern. Further supporting compliance is the Auditor's review of resident records that showed timely education, the materials viewed during the tours and the videos reviewed.

The Policy defines the positions trained to administer the screening tool. The Policy states, "All residents shall receive the PREA Admission and Placement Screening (Form YD 011) within 72 hours of arrival at the center and periodically (e.g., housing assignment change, change in vulnerability or aggression, etc.) throughout a resident's confinement." As a pre-trial facility it receives juveniles from the community, most screenings are completed the same day as the juvenile's admission to the Juvenile Detention Center. All residents are reassessed within 14 days of admission and if any additional information is learned adjustment to scoring and client needs are made. Staff confirmed residents might also be rescreened for cause. The review of the screening reports supports the practice of screening and reassessment of individuals is standard. This was verified in the review of active and closed files from the past year.</p> <p>Indicator (b) The tool developed by the North Carolina Department of Public Safety for screening residents for potential sexual violence or sexual victimization is an objective tool utilizing information from the resident's criminal records, information from other treatment and justice settings, and the clients self-reported information. The Auditor was provided with the materials on how to administer and score the tool to ensure that the application is objective. The Auditor spoke with an individual who completes the screening to verify the process. The tool scores all residents on levels of risk for perpetration of sexual violence or sexual vulnerability. Screenings are completed in North Carolina Juvenile Justice facilities by the facilities Mental Health team. The individual completing the scoring takes information from three sources, interviews with the resident, observations made during the screening and historical documents in the client records. The scorer answers yes, no, or unknown to each section questions. The number of yes answers will determine the juvenile's score.</p>

Indicator (c) Policy RP YC 2 Admissions and Assessment (page 4) describes the various elements required in the indicator. "The Center Director/designee shall determine the appropriate living unit and room assignment. All assessments/screenings shall be completed prior to assigning the juvenile to a room. Several factors must be considered in room assignment, including: 1. Social history; 2. Gang affiliation; 3. Prior sexual victimization or abusiveness (engaging in sexual abuse); 4. Observed sexual orientation (lesbian, gay, bisexual), transgender, or intersex status; 5. Current intake entries and offense history and nature of offense(s); 6. Age; 7. Level of emotional and cognitive development; 8. Physical size and stature; 9. Mental health history- mental illness or mental disabilities; 10. Intellectual or developmental disabilities (cognitive and emotional); 11. Physical disabilities; 12. The resident's own perception of vulnerability; and 13. Any other specific information about individual residents that may indicate heightened needs for supervision, additional safety precautions, or separation from certain other residents."

A review of the objective tool used in North Carolina DPS facilities shows that it accounts for all 11 elements required in this indicator. In completing the tool, the staff person reviews documentation provided at intake and obtains information from the client. Wake Regional Juvenile Detention Center's trained staff complete intake screening, The medical and mental health staff will also review their screenings for consistency including some PREA related questions. Medical staff will work with the Mental Health Clinicians to ensure any medical issue or disclosure by the youth to medical staff that would affect the scoring tool is provided. The residents confirmed they were asked about their sexuality, their past victimization history and if they felt if they were going to be safe. The tool also looks at their past charges and detention history. The JDC uses scoring from other normed screening tools, the MAYSI or Suicidal screening tools, to help determine emotional and cognitive development and the juvenile history of trauma. The staff member also assesses age and size compared to the existing population.

Indicator (d) The Wake Regional Juvenile Detention Center uses regular treatment meetings once a client is admitted to continually assess the client's needs and interactions. The Health Service Coordinator is key to ensuring that information from those who interact with the youth in various settings in the facility administration, custody, medical, mental health, and education is shared. It is through this process initial assessment information is reviewed and if additional information comes to light in medical, mental health or educational assessments or records review the scoring can be adjusted appropriately. As pretrial environment residents' stays vary from 1 day to several weeks for those awaiting sentencing in a secure YDC. Medical and mental health are critical other resources of information and will look at treatment records along with the information provided by the court to determine.

Indicator (e). The North Carolina Department of Public Safety completes the screening information in its electronic case management system (NC-Join). The electronic case management system limits who may have access to the screening information, especially the client's more sensitive information. Disclosures made in the Medical or Mental Health records are completely siloed from the custody staff in the electronic medical records. Staff are only provided enough information as necessary to keep them safe. Information on an individual's past abuse from record to treatment disclosures would not be available to custody staff. Residents support information is kept confidential unless someone is getting hurt.

Compliance Determination

The Wake Regional Juvenile Detention Center ensures all residents are screened for sexual victimization and abusiveness using an objective tool. Agency policy requires that all residents be screened initially within 24 hours and reassessed within 14 days by the facility classification team. The Agency also requires periodic rescreening by using the PREA assessment instrument. This is also done when warranted due to a referral, request, incident of sexual misconduct or receipt of additional information that bears on the juvenile's risk of sexual vulnerability or sexual violence. The North Carolina DPS electronic medical record system protects resident's sensitive information from disclosure.

The objective tool of North Carolina DPS has clear guidelines for its use. The tool accounts for all factors required in indicators (c). They have also implemented a system to ensure that after the initial screening, the residents are asked about sexuality, victimization history and perceived safety. Team members were aware of resident screening and the importance of using the information. Medical staff will also ask PREA related information at the initial assessment and pass any new information back to the intake staff to ensure the screening encompasses all information obtained at intake.

Compliance was determined based on the random screens provided consistent with time requirements in the standard The Auditor worked with the facility to pick a random sample of files to ensure the screening process is completed consistent with standard expectations. Interviews with staff and residents further support that the appropriate questions are being asked. As

a treatment focused facility mental health staff were able to describe how they use screening tools to inform treatment planning.

The agency ensures those with a high score for perpetration of sexual violence from being placed in the same housing unit as an individual with a known victim history. All cells in the facility are singles. Individuals with victimization history or perpetrating histories are provided counseling onsite by Mental Health staff or through the local rape crisis agency if requested. The multi-discipline team, using the results of the screening and the client history, will plan for housing, treatment, and education placement. During these team meetings, a potential conflict would be identified between the known individuals on each side of the scoring for risk. Agency practice if an individual score with both perpetrating and victim history is to house separate from others with victimization histories. Given the small size of facility all Juveniles are under staff direct supervision at all times. All bedrooms in the facility are single rooms and room assignments are based on scores to ensure vulnerable individuals are kept separate from aggressive best as possible in the environment. One unit hold males and females while the other holds just males. At WRJDC youth go to school in the middle of the housing unit and there is no vocational program currently. Other programming is limited in the pretrial setting and youth do not work. Residents at WRJDC are always under staff supervision and not allowed to move about the facility without escort. PREA Compliance Manager confirm that staff are provided enough information to ensure client a kept safe.</p> <p data-bbox="242 1982 1485 2139">Indicator (b) Wake Regional Juvenile Detention Center has not isolated any residents in the past 3 years to keep them safe form sexual assault. NCDPS policy addresses resident isolation requirements, including the requirement that the placement in isolation is the last resort to maintain safety. Policy states, "Residents may be isolated from others only as a last resort when less restrictive measures are inadequate to keep them and other residents safe, and then only when alternative means of keeping residents safe cannot be arranged. Any resident isolated for the purpose of sexual abuse prevention will receive</p>

daily visits from medical or mental health staff, have access to required educational programming, and have access to other programs to the extent possible.” There is no segregation unit at the JDC, the only way to maintain this process would be to have the juvenile moved separate to the other housing unit.

Indicator (c) PREA policy states, “In deciding whether to assign a transgender or intersex resident to a center for male or female residents, and in making other housing and programming assignments, the division shall consider on a case-by-case basis whether a placement would ensure the resident’s health and safety, and whether the placement would present management or security problems.” The Auditor confirmed through review of population records and interviews with random staff and residents that there is no practice of housing LGBTI residents, in any particular unit, because of perception of vulnerability or aggressiveness based on gender identity. There were no LGBTI juveniles in the facility to interview about their perceptions. The facility administration is prepared to house the child consistent with their preferences.

Indicator (d) The North Carolina Department of Public Safety clearly states that the Transgender and Intersex resident housing will be made on a case-by-case basis. Transgender or intersex residents’ housing decisions shall be made on a case-by-case basis, taking into account the resident’s views and shall be based on protecting the resident’s safety and mental health and preventing security issues. WRJDC received its last transgender admission in 2019. The resident meeting notes discussed housing, the residents preferred pronouns, accommodations provided, and treatment services offered. The Auditor made suggestions on improving the documentation of information to be able to document the concerns of the standards. The North Carolina Department of Public Safety has instituted a SOGIE (Sexual Orientation, Gender Identity, and Gender Expression) questionnaire for all residents which further helps in the identification of LGBTQI youth. Pertinent safety concerns for transgender or intersex residents can be communicated to line staff through safety plans which are also used for medical or mental health information that line staff need to be aware of. As noted there were no transgender residents with whom the Auditor could interview.

Indicator (e) Juvenile Justice Facilities Sexual Abuse and Harassment Policy and Procedures states housing and program assignments for a transgender or intersex resident shall be reviewed through the facility classification process at least every six (6) months to consider any threats to safety experienced by the prisoner or resident. The facility has not had a transgender individual in the past year. Discussions with the PCM and the Director confirm the steps that would be taken to ensure the client’s safety and comfort. The medical and mental health staff also believe they would be part of the any planning meeting for transgender admissions. As a pre-trial facility it would be unlikely that a youth would remain in the facility for a 6-month period. The average length of stay in the facility is 29 days.

Indicator (f) NCDPS policy states in the case of a transgender or intersex resident, the decision about housing shall be made on a case-by-case basis, taking into account the views of the resident. There were no current transgender juveniles in the facility or any admissions in the past year.. Transgender individuals, like other residents, have access to weekly treatment meetings in addition to a two-time-a-year accommodation meeting. The Auditor pointed out ways to better document the resident’s preferences in the safety review document. The Health Services Coordinator, Mental Health Provider and PCM all confirm regular communication on a transgender youth would occur frequently.

Indicator (g) NCDPS PREA policy requires “Transgender and intersex residents will be given the opportunity to shower separately from other residents.” Wake Regional Juvenile Detention Center residents all have access to individualized showers. All juveniles reportedly shower in single person shower rooms on the units. There are solid doors the provide privacy to residents in the showers and on units.

Indicator (h) Wake Regional Juvenile Detention Center has not isolated any residents.

Indicator (i) Wake Regional Juvenile Detention Center has not isolated any residents. NCDPS policy addresses if isolation occurs, including a review at a minimum of every 30 days.

Compliance Determination

As discussed, the North Carolina Department of Public safety has policies that describe the requirements of the various indicators in this standard. The electronic case management system of North Carolina DPS (NC-Join) will prevent housing of potential or known victims with potential or known aggressors based on the PREA Screening tool in 115.41. All residents are asked how they feel about their safety which helps guide the placement process for housing and eventually programming. WRJDC currently has no transgender residents. Policy language in place support they understand the steps needed to protect the right of all LGBTI residents. During the tour and subsequent movement, the Auditor was able to see how a transgender residents would have privacy during shower or bathroom use. Documentation supports that LGBTI residents are not all housed together or denied programming. There is no legal judgement requiring such condition to exist.

Line custody staff also understand the need to protect potential victims from potential aggressors and discussed during their informal and formal interviews, how they get to know the resident and observe and address any behaviors. Facility leadership report known aggressors and known victims would not be housed in the same unit and that they move by unit in school and for most programming. Unit staff have access to safety plans that can provide pertinent information without disclosing sensitive information.

The standard is determined to be compliant based on policy, supporting documents, and interviews with residents and staff. The Auditor finds that practices are in place to use screening information, and there is good communication about those at risk. Absent a current transgender individual, the Auditor relied on existing file documentation and staff reports to help in the compliance determination.

115.351	Resident reporting

Residents knew of the postings on the walls of the units and information on how to report a concern in the PREA Brochure for residents. Residents described options to report a concern including directly to a staff they trust to any case manager or medical or mental health staff, by writing the Facility Director or by calling the DPS PREA 'hotline' or the Department of Social Services. It should be noted residents supported they have comfort with going to line staff to report a concern. The facility also provides pre-addressed envelopes for mailing internal or external agencies about PREA concerns. The PREA Coordinator did confirm there were no claims filed through the PREA Hotline for WRJDC. The agency PREA policy (page 14) covers reporting and ensures each facility administrator has multiple ways for residents to report a concern related to sexual abuse, sexual harassment, retaliation, or staff neglect that contributed to abuse. Staff interviewed knew of their mandated responsibilities to report all PREA allegations no matter the source, as well as any retaliation against individual who report or cooperate in an investigation. The staff were also clear they must report on a co-worker's actions or inaction that lead to any abuse of a youth. The Auditor was able to see two large walls area of the housing unit that provide a kid friendly resource of information on PREA, how to report and resources for getting help internally and externally.</p> <p>Indicator (b) The North Carolina Department of Public Safety has set up a way in which residents can report a PREA concern to an outside agency. The phone numbers for the local DSS was added to the PREA poster, and the residents have pre-addressed envelopes to DSS. in each housing unit. Residents were aware of these options and stated they could also call attorneys or family members also to report a concern. WRJDC does not house juveniles for civil immigration violations. Residents also understood the complaint could be made anonymously.</p>

Indicator (c) Random staff interviews, confirm consistent with agency policy, that all staff take any report of a PREA related incident seriously and report the concern to a superior or to the facility investigator. Policy states, "Any employee who receives an allegation or has knowledge of sexual abuse or possible sexual abuse or harassment and fails to report the allegation as provided in this policy or DJJDP 6, Reporting Abuse and/or Neglect, or fails to initiate a Sexual Abuse Incident Response Checklist, will be subject to disciplinary action up to and including dismissal. Staff has a duty to report any allegation that residents are having sexual relationships with other residents or with staff, as well as a duty to initiate the PREA Sexual Abuse Incident Response Checklist (Form YD 001)." Random staff knew they had to report the claim no matter the source of information including anonymous notes. The staff reported that any claim, even if they thought it did not occur, needed to be reported. The staff also confirmed that after giving notice to a supervisor they were required to file a written report on the claim. Finally, the staff also confirmed they had to report on the actions or failure to act of a fellow employee that leads to a sexual assault. Staff reported verbal notification to a supervisor was required as soon as possible and that an incident report must be filed before the end of the shift. The random staff statements were consistent with the language in DPS policy and this standard indicator.

Indicator (d) The Auditor confirmed with residents how they could file a written complaint on PREA through the grievance system or in-house mail to a staff person they trust. They also were aware they could write outside agencies and most understood the meaning of privileged correspondence. As noted above the Auditor saw the mailbox system on the housing unit used to send internal or external mail. Below the black box was pre-labeled envelopes to internal and external reporting options including the Director, the State PREA Coordinator, and the Local DSS office. WRJDC PREA Compliance Manager also confirmed the various ways in which a client reports a concern and how the administration would be notified of any claims

Indicator (e) The Agency provides several avenues for staff to report a concern of sexual assault or sexual harassment. Beyond reporting an incident to their immediate supervisor, if the staff had a concern about the supervisor or another staff being involved with a client they report to another supervisor or to a higher-ranking individual, they can make a report using either the posted phone numbers or The North Carolina DPS PREA office. Staff interviews confirmed they were aware of multiple avenues to report a concern. The staff knew they could report out of the chain of command without consequences. The Auditor also was provided with a PREA informational brochure which describes how staff and volunteers can report a concern. The Auditor also saw posting up in the facility that direct staff as to their options.

Compliance Determination

North Carolina Department of Public Safety and WRJDC Juvenile Justice facilities Sexual Abuse and Harassment Policy and Procedures, outlines the requirements of this standard. Page fourteen of the policy addresses the staff responsibility to accept all forms of resident reported sexual abuse and sexual harassment claims. The facility's Sexual Assault Brochure and posters throughout the facility all give direction on the importance and methods of reporting sexual abuse and sexual harassment. Interviews with staff were consistent in their understanding of their duties of accepting and responding to all reports of sexual assault or sexual harassment whether it was done verbally, in writing, anonymously or by a third party. Residents interviewed were aware of multiple ways in which they could report including telling staff, calling the hotline to one of two numbers, mail administration or the Department of Social Services, complete grievance form or call or write the local rape crisis agency. Posters seen on all the housing units during the tour direct residents on how to report if they did not want to speak to WRJDC personnel. The rape crisis information is also located in the resident handbook. Residents spoken to formally and on tour reported comfort in speaking with staff including the unit staff if they had a concern. Custody staff reported knowing how to privately report PREA concerns to administration and that there is no problem reporting out of the chain of command. The Auditor finds compliance with standard provisions, based on the policy, documentation provided and viewed on the tour, and the interview findings of random staff and residents as well as interview information from the PREA Compliance Manager and PREA Coordinator.

Sexual misconduct is a reason for which a resident can file a grievance. In the 12 months prior to the site visit, there were zero sexual assault or sexual harassment claims.</p> <p data-bbox="240 1198 1489 1525">Indicator (b) Agency policy and client handbooks support the resident can file a grievance to a person who is not the subject of the grievance, and there is not a time requirement for filing a PREA Grievance. There is also no requirement to resolve the situation through an informal process. Agency Policy sets forth these conditions and informs them of the confidential nature of the process. The Policy states that no grievances related to allegations of sexual abuse will ever be denied, the policy goes on to state these grievances will be handled automatically as an emergency grievance. "Emergency grievance: If a grievance alleges that a juvenile is at substantial risk of imminent sexual abuse, the director shall take immediate corrective action and provide an initial response to the juvenile within 48 hours of receiving the grievance. The Center Director/designee shall provide a final determination of whether the juvenile is at substantial risk of imminent sexual abuse and the action taken in response to the emergency grievance within 5 calendar days" Residents did not believe they have to go through a informal resolution process to file a grievance.</p> <p data-bbox="240 1619 1469 1843">Indicator (c) The facility has several steps in place to help juveniles in making grievances. Each housing unit has a secure black box in which grievances or inhouse mail to administration can be entered. The facility limits access to this box to administration and provides envelopes so residents can send sealed mail. If the person who handles grievances is the subject of the complaint, consistent with agency policy, the residents can send the grievance directly to the facility administrator. The WRJDC Director did not report receiving any PREA related grievances. NCDPS grievance policy states, "A resident who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint. Such grievance is not referred to a staff member who is the subject of the complaint."</p> <p data-bbox="240 1937 1489 2125">Indicator (d) Chapter 6 of the agency policy manual addressed the agency's internal grievance process. The policy sets forth the requirements for response and appeal consistent with the standard, including 90 days from submission and requirements for notification on extensions. At North Carolina facilities, all PREA related notifications would be completed by the assigned PREA Support Person. The North Carolina Juvenile Justice will produce a faster response period than the indicator requires since the timeline for administrative response to sexual abuse grievance to have an initial response within 5 days. As a smaller facility, grievances are resolved generally in days instead of months.</p>

Indicator (e) Agency grievance policy addresses the concerns of this indicator. "Third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, and parents/legal guardians shall be permitted to file a grievance on behalf of or assist residents in filing grievances relating to allegations of sexual abuse." Residents spoken to by the Auditor confirmed that there is no prohibition on assisting or filing a grievance for another resident. Most residents did not pick grievances as an option for reporting a PREA concern without prompting. Most residents identified direct communication with staff, administrators or calling the PREA Hotline. Staff were also aware they need to accept all complaints or grievances from third-party individuals.

Indicator (f) As noted in indicator (b), any grievance where there is an imminent risk for sexual misconduct requires immediate notification to the facility's chief administrative officer and it will be handled as an emergency grievance. Policy states, "Emergency grievance: If a grievance alleges that a juvenile is at substantial risk of imminent sexual abuse, the director shall take immediate corrective action and provide an initial response to the juvenile within 48 hours of receiving the grievance. The Center Director/designee shall provide a final determination of whether the juvenile is at substantial risk of imminent sexual abuse and the action taken in response to the emergency grievance within 5 calendar days." There were no incidents in which an emergency grievance was filed in the last 12 months. Discussions with both the Facility Director and the PREA Compliance Manager support an expectation of an immediate response to any claim of sexual misconduct, including grievances focusing on providing the victim safety without the use of isolation.

Indicator (g) Residents can only be disciplined if, through an investigative process, it is substantiated that the grievance was filed in bad faith. This is the same standard for all PREA complaints filed even if they are not through the formal grievance process. Agency policy (PREA pg. 13) states, "A report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred shall not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation." There were no instances in which grievances were filed in bad faith. Juveniles spoken with were able to describe the discipline process at the facility for lying and recognize that false allegations related to PREA would be taken seriously.

Compliance Determination

Wake Regional Juvenile Detention Center is not exempt from the exhaustion of administrative remedies. The North Carolina Department of Public Safety has created a policy that promotes the use of a grievance process. Policy states, "Complaints and grievances are confidential. Only those persons necessary to resolve a complaint or grievance, or group of complaints or group of grievances (trend), should be informed of the content. In resolving the issues, parties necessary to the communication and resolution of the issue are notified. Complaint Process (conversation, written letters) Formal Grievance Process (Grievance submitted on a DJJ Grievance Form). The complaint and grievance processes shall be administered in such a manner as to promote a dialog between staff and juveniles, where the juvenile will not fear reprisal (revenge/punishment) for conveying a complaint or making a grievance. Confidentiality serves this end." There were no instances in which normal grievance, or an emergency grievance was filed. Residents in the random interviews reported no history of filing a grievance on a PREA related concern. Residents reported comfort in telling staff directly about concerns and if they felt it was not addressed, they would send a request to the Wake JDC Director or the PREA Compliance Manager to discuss concerns. With no PREA Grievance to review, compliance determination relied on the policy and interviews with the Facility Director, PREA Compliance Manager and the residents who were aware the grievance process was a possible avenue to report a sexual misconduct concern.

The Auditor also spoke with representatives of InterAct that reports they can provide support to the population. The umbrella rape crisis agency in North Carolina Coalition Against Sexual Assault. (NCCASA) can also provide access to services in the facility and provide a network of resources for youth leaving custody to other parts of North Carolina. The RRC agency's employees are granted professional visitor status which allows for confidential communication. This means that calls are not recorded, mail is not read, and visitation can be private. The WRJDC do not hold juveniles for civil immigration violations. The facility has postings up to inform residents how to access legal assistance. The InterAct staff confirm they can provide all the services required, including accompaniment for hospital and legal interviews as well as supportive counseling and referral.</p> <p>Indicator (b). All residents are informed at the inception of services that confidentiality is limited when there is an individual who has been victimized in the institution. All Wake Regional Juvenile Detention Center residents sign acknowledgment forms on confidentiality limitation. Health care staff report residents are educated on confidentiality as part of their service introduction for both medical and mental health services. Juvenile calls are not recorded but are completed in an area near the office desk or they can request to make the call with the Health Services Coordinator.</p> <p>Indicator (c) The WRJDC has a Memorandum of Understanding with the InterAct which covers providing victim services including emotional support to victims of sexual abuse. A review of the MOU shows the document outlines what each party agrees to provide as part of the agreement. The agreement is current and interview with the InterAct representative confirmed the relationship and what services are provided to victims of sexual abuse. The NCDPS PREA Office has a relationship with the state-wide rape crisis agency North Carolina Coalition Against Sexual Assault (NCCASA).</p>

Indicator (d). WRJDC provides the residents with an understanding on the levels of confidentiality in their communication to legal representatives or to their parents. Due to the COVID-19 pandemic visitation were not in person so calls were done by phone or through video conferencing. These conditions were beginning to be relaxed at the time of the site visit though youth still were doing in some cases video court. The residents understand these restrictions and that even during the phone call, staff can only hear their side of the question. The detainees are not limited on the mail they can send. Resident phone calls are made at no financial cost to the youth or their families.

Compliance Determination

Resident victims at WRJDC can access victim advocates for emotional support. The agency has entered into a Memorandum of Understanding with the InterAct to provide support to victims (Indicator (c)). As part of the audit process, the Auditor spoke by phone to InterAct representatives who confirms their ability to provide service at DPS facilities. The PREA Brochure and signage throughout WRJDC had a toll-free number for residents to access from the unit phone in the facility or with their case manager. The posting and expect respect brochure inform residents they can call or write outside agencies who could come to the facility to provide services as a professional visit.

Residents could identify how confidential the communication is within the facility, including mail and telephone contacts. Residents also knew that outside counseling staff could be spoken to in a professional visiting setting. The Auditor could see, posters for NCCASA and legal assistance for those detained. All indicators of this standard were covered in policy that supported compliance and the documentation visible on the tour and through interviews with residents and outside organizations. The PREA Compliance Manager was encouraged to engage with the RRC community to build on the relationship and services available.

There is information directing residents in the PREA brochure, PREA poster, resident handbook, and on the website noted above. The residents are provided information on how to send complaints to the Department of Social Services. Staff were aware that they must take all reported concerns about PREA potential violations, including from third parties. The agency's policy on abuse and neglect states it has "a zero-tolerance policy towards all forms of abuse and neglect and stands committed to a culture of safety and security. Any staff member who has cause to suspect or receives any information that possible abuse and/or neglect of a juvenile occurred while in the physical custody of the Department, while under the direct supervision of the Department, or occurring in or on DJJDP-operated facilities/grounds or Court Counselor offices, must immediately take appropriate action to: (1) safeguard the juvenile(s) involved; (2) secure the scene of the incident where the alleged abuse and/or neglect occurred on departmental facility grounds; (3) report the matter immediately through the chain of command and to the Department of Social Services (DSS); and (4) complete an Incident Report. All other instances of alleged or suspected abuse/neglect shall be reported to DSS and recorded in NC-JOIN case notes. The staff interviewed by the Auditor were also clear that knowledge of misconduct by staff through actions or inactions leading to abuse must be reported. According to the Abuse and Neglect Policy all staff must complete specific training on their reporting requirements within the first 90 days of employment The policy which predates the PREA standards is consistent with the required notification internally and to DSS and law enforcement.</p> <p>Indicator (b) NCDPS policy Juvenile Justice Facilities Sexual Abuse and Harassment Policy and Procedures states, (on page 14), that all reports of abuse will include reporting the incident to the Department of Social Services (DSS). As noted in Indicator (a) the agency's Abuse and Neglect Policy also sets forth this requirement. Random staff interviewed were aware of the requirement and the Auditor was provided with examples of the NCDPS PREA Incident Checklist which (item 6) reminds staff to notify DSS and local police on all allegations of sexual abuse and on any allegation of sexual harassment if a staff person is the alleged perpetrator. The Auditor also reviewed state statutes which define reporting responsibilities consistent with the policy.</p> <p>Indicator (c) Random staff were aware of the importance of keeping information disclosed by a resident to those with a need to know such as the Supervisor on duty, and appropriate medical or Mental Health staff who may respond. information about the incident is confidential and should only be shared on a need-to-know bases.

Indicator (d) As noted in previous standards, the medical and mental health staff ensure client confidentiality unless there is a risk that another could impact the safety of individuals. Staff report residents sign that they understand the limits of confidentiality with medical and mental health upon initiation of services. As noted in indicator (b), North Carolina state law requires notification of Department of Social Services for any abuse of juvenile residents. Medical and mental health staff were able to discuss the requirements for informed consent and how they notify all residents at the initiation of services on the limitations of their confidentiality. The Auditor was shown examples in the Juvenile charts of the confidentiality requirement.

Indicator (e) Agency PREA Policy (page 22) sets forth the obligation to notify parent or legal guardian of any allegation of sexual assault. It states, "Ensure appropriate signed individual consent forms are obtained for participation in the acute medical evaluation, the comprehensive medical evaluation, and/or the forensic mental health evaluation. The limitations of confidentiality must be explained the alleged victim and/or the parents and/or the legal guardians at the time that consent is signed."

Compliance Determination

There are multiple policies and statutes that direct staff of WRJDC in the handling of a report of Sexual Assault or Sexual Harassment. Random staff interviews confirmed that staff are aware of the immediate need to report all accusations of sexual assault or sexual harassment. They knew this included third party and anonymous complaints and accusations that may not be true. The staff interviewed knew they also had to report on a coworker whose actions or inactions lead to a sexual assault. Staff were aware of the importance of timely reporting and the need to provide confidentiality about information. Staff were aware that exceptions are when reporting to supervisory staff, investigative staff or information needed to secure treatment or provide for the safety/security of others.

The facility's Medical and Mental Health staff were aware of the timely reporting concerns. Supervisors also know to contact the resident's parent/guardian, WRJDC Administration, local law enforcement, and the Department of Social Services. Medical and Mental Health staff have all residents sign a form understanding the limit of their confidentiality prior to service. All staff, including the contractors, were aware of mandated reporting and their legal responsibility to report. The above stated facts support compliance and that the staff have a clear understanding on the responsibility to report a concern related to PREA. The Auditor considered absent a PREA allegation, the checklist that guides staff response and client interviews supporting an understanding of the limits of confidentiality if a resident was a risk of being hurt or hurting someone else.

Random staff interviewed identified what to do in situations of imminent risk, including immediate separation of parties, increased contact, support to the residents, notify up the chain of command, and documentation of the incident. Each unit has special needs plan binders that promote client safety and ensure staff knows where potential conflicts exist. Compliance was determined based on the interviews with Administration and line staff. The Agency PREA policy states, "Management is responsible for monitoring the conduct and treatment of residents and staff who reported the sexual abuse and the residents who were reported to have suffered sexual abuse for at least of 90 days following the report." The North Carolina Department of Public Safety has created voluntary positions for facility staff who want to serve as PREA Support Persons. The individuals are approved by the facility Director and receive additional training annually. The PSPs serve as go-to persons for victims or other residents who cooperate in an investigation of sexual misconduct. The Policy defines their roles in monitoring for retaliation of residents. The policy also requires the PREA Compliance Manager to serve as the individual responsible for monitoring staff for retaliation. The PREA Compliance Manager will ensure the monitoring process is documented. The form documents the types of monitoring in the given week from the review of incidents, discipline to follow up with mental health, or direct conversation with the resident by the person completing the monitoring. Residents would routinely be offered counseling services and case workers would provide routine check-ins to ensure the client is feeling safe. Staff who may have concerns would work with the operational supervisor to mitigate the concern. The Director supports that the alleged victim would be kept apart from the alleged aggressors. The agency as noted in 115.366 has the ability to remove alleged staff from contact with alleged victims. The Director report any retaliation or ongoing concerns could result in the movement of one of the residents to other facilities as deemed necessary.</p> <p data-bbox="240 1877 1479 2134">Indicator (c) As noted in Indicator (a) the Department of Public Safety policy supports all individuals (Residents and Staff) who report a PREA Incident are monitored for changes in behaviors that might be a symptom of their being retaliated against. The form developed also addresses the nine elements of this indicator. The individual completing the form must document if they reviewed discipline, if housing moves occur or are requested, programmatic or job performance changes, and document if face-to-face communication has occurred or if a mental health follow-up was requested from any of the monitoring concerns. The agency PREA policy states the monitoring will go for a period of at least 90 days. The Auditor was able to interview a PREA Support person on their role, and what they consider in the monitoring process. Including the frequency, they would have with the resident directly. The PSP is required to provide documentation of their efforts to the</p>

PCM and notify immediately if they have any concerns of possible retaliation.

Indicator (d) The occurrence of status checks can be documented through the form. The PSP can obtain information through treatment team meetings as well as the unit management team notes or mental health chart. The NCDPS Juvenile Justice PREA policy indicated the resident is expected to complete direct conversations weekly during the first three weeks and periodically thereafter. The PSP is also required to speak with the facility Director and the agency Investigators about the status check-ins.

Indicator (e) As noted in indicator (b), the facility has sufficient means to protect a resident. Wake is one of ten Juvenile facilities for housing the North Carolina Department of Public Safety clients. The facility has two housing units, and all residents are single-celled.

Indicator (f) The Auditor is not required to review this indicator

Compliance Determination

The Department of Public Safety has a policy in place to address the elements of this standard. Documentation supports the facility has been compliant with monitoring expectations. The facility did not have a staff person who needed to be monitored this year. The Human resources staff are aware of the standard, and the facility Director would also monitor staff. The policy ensures ongoing communication with the facility Director and the assigned investigator.

The Agency Head and the Facility Director, both described multiple mechanisms that would be put in place to protect individuals who report sexual assaults which include changing housing, preventing contact between the accused and the victim and monitoring reports about the resident or staff to see if there is any change in behaviors. The Agency has developed a cadre of staff in the PREA Support Persons at each facility to ensure residents have an individual they could feel comfortable discussing their ongoing safety after making an allegation of sexual misconduct. The PREA Compliance Manager and Facility Director were aware that retaliation monitoring should be done with all individuals who cooperate with the investigation. The standard is compliant based on information provided, interview statements, and the policy.

The residents are not allowed to be isolated in cells for long period of time. Agency policy states, "Residents may be isolated from others only as a last resort when less restrictive measures are inadequate to keep them and other residents safe, and then only when alternative means of keeping residents safe cannot be arranged. The WRJDC has two housing units which allows victims to be separated from aggressors in the population as a protective measure. Any resident isolated for the purpose of sexual abuse prevention will receive daily visits from medical or mental health staff, have access to required educational programming, and have access to other programs to the extent possible." The Director confirmed that it is not their practice to isolate individuals and if there a concern the individual with greater restrictions would be the aggressor, not the victim. Wake PREA Compliance Manager reports no instance in which special management practices were required to be used for a victim of sexual assault. The NCDPS facility was not built with an isolation unit.</p> <p>Compliance Determination</p> <p>In the interview with the facility Director, the Auditor confirmed documentation from the audit file stating they have not used segregation of any victims of a sexual assault in the past year. The facility Director stated, given the size of the facility and the various housing options, there would be no reason to isolate the youth given other supportive measures that could be put in place. The Facility Director confirmed the practice is to ensure limited impact on the victim and movement restrictions would occur preferably in the management of the aggressor. Since there was no use of special management, the Auditor could not interview a resident or staff person who had supervised them. The standard is determined to be compliant based on policy, the documentation provided, physical plant observations and interviews completed.</p>

The policy and the coordinated response plan define duties, and agency policy requires investigation of all allegations, including those from a third party or anonymous sources. Random staff interviewed supported they must report all claims no matter the source or if they believe the incident to have occurred. The Department of Public Safety further supports the objective investigatory process through its Office of Special Investigations if the allegation involves a staff member. This office will complete an investigation of any staff related complaints instead of having the investigative team associated with the facility lead the investigation. The facility investigator will work with the local law enforcement agency to ensure the administrative investigation does not impinge on the criminal investigation. During the interview with the WRJDC Director/Investigator discussed how he would coordinate with agency leadership and the local law enforcement in the event of a sexual abuse allegation.</p> <p>Indicator (b) As noted in 115.334, the North Carolina DPS Juvenile Justice has several staff who have completed a course on administrative investigations of sexual assaults in a correctional institution including two staff at WRJDC. Documentation in that standard and interviews with the Director confirmed he has completed the training. WRJDC will rely on local law enforcement to do crime scene investigation including any DNA or other evidence collection. The Auditor confirmed through staff interviews they know how to protect evidence. The Director or PCM would also ensure that written reports and electronic surveillance evidence would be made available to the criminal investigators. Raleigh as the state's capital has a large police force capable of completing a criminal investigation of sexual abuse in a locked setting.</p> <p>Indicator (c) In the DPS Investigator interview he described the steps to preserve evidence but that the local police investigators would complete actual evidence collection at the crime scene. The WRJDC staff knew how to ensure the preservation of evidence including DNA including closing off the crime scene and asking the individuals to not do anything to destroy evidence on their persons. The Investigator spoke on how evidence collected by the SAFE/SANE at the local hospital would become part of the criminal investigative file. The facility staff all were able to explain how to protect evidence until the law enforcement authorities arrive. Agency policy addresses the retention of evidence; "When a video is available</p>

that is associated with an alleged sexual abuse or harassment incident, a copy of the video will be maintained with the full investigative package in accordance with DPS retention policy.” The Policy further states, “In order to preserve the integrity of the investigation and if law enforcement is not involved, then one person or a specific team shall be designated to investigate an incident, and only that person (or team) shall be involved in the collection of evidence and interviewing of potential witnesses. A thorough investigation is necessary to ensure the potential for prosecution/legal action. “In the event of a criminal investigation, DPS staff are directed to not move forward on administrative investigation steps, including interviews, until approved by the criminal investigator.

Indicator (d) The Director/Investigator confirms they will not terminate an investigation if a resident recants their allegation. Agency PREA policy (page 18) states, “The Department of Public Safety shall not terminate an investigation solely because the source of the allegation recants the allegation.”

Indicator (e) The determination on compelled interviews would be made by the criminal investigator and the local prosecutor. NCDPS investigators would not be completing compelled interviews.

Indicator (f) The Investigator interviewed confirmed that there is no requirement of a victim to undergo any polygraph or other truth-telling process to proceed with an investigation. The Investigator confirmed in the discussions with the Auditor what the policy requires (PREA policy -page 18). “A resident that alleges sexual abuse shall not be required to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation.” The Investigating staff person, consistent with policy and training, will assess the credibility of everyone involved in the case without biasness toward their position as a staff or resident.

Indicator (g). All criminal investigations potentially can include a referral to the NCDPS Office of Special Investigations if the evidence supports that a staff persons actions or inactions led to a resident-on-resident sexual assault. Administrative investigations into sexual harassment claims or other staff actions in sexual misconduct investigations can result in discipline outside of termination. All administrative investigations that are completed are required to have a related investigation file which includes written or oral statements, video or other physical evidence, and the reasoning behind the conclusions reached. There were no files to review of criminal or administrative investigations.

Indicator (h). All criminal investigations would be completed by the Raleigh Police Department. Since there is no prior investigations there is no documentation to review.

Indicator (i) The Auditor was unable to review investigative files from incidents in the last 12 months. Agency policy requires all criminal acts to be referred for criminal prosecution and interviews with facility leadership support they would encourage prosecution in the event of a sexual assault incident. The Auditor confirmed with the Director/ investigator that they would stay informed about any of the required steps toward prosecution that require resident notification.

Indicator (j). The North Carolina Department of Public Safety requires record retention for a period of 5 years beyond the resident's involvement with WRJDC. Policy language covers the standard indicator. The Auditor reviewed other agency documentation on the website supporting this and addressed the issue with the trained investigator.

Indicator (k) Agency policy mirrors the standard language and the Investigators interviewed confirmed individual's departure from the institution would not result in the case being closed. “The departure of the alleged aggressor or victim from the employment or control of the Department of Public Safety shall not provide a basis for terminating an investigation.”

Indicator (l) Auditor is not required to audit this provision.

Indicator (m) As noted in above indicators, both facility leadership and the investigator interviewed confirm they would remain

informed on criminal investigations completed by the Raleigh Police Department.

Compliance Determination

The North Carolina Department of Public Safety has policy language that supports this standard. In determining compliance, the Auditor took into consideration many factors. The North Carolina Department of Public Safety has sufficient and appropriately trained individuals who can complete sexual assault administrative investigations and have developed relationships with local law enforcement agencies to complete criminal investigations. North Carolina DPS Juvenile Justice investigates all potential sexual-related incidents as possible PREA events even if the residents report the actions were consensual. In doing so they ensure all incidents are investigated, and evidence is collected, which provides an opportunity for a reluctant victim to come forward later. To ensure issues are handled impartially, the NCDPS central office's Special Investigations Unit would lead the administrative investigation if the incident involved a staff member.

In the Auditor's interview, the Director who is a trained investigator was able to identify the steps taken to gather evidence, how the credibility of the various persons involved is determined on an individual basis, and a polygraph exam would not be required for the initiation of an investigation. Consistent with policy, it was stated that investigative reports will be completed on all administrative and criminal investigations. The facility will remain informed on all criminal cases handled through the local law enforcement agency. Absent a PREA allegation the auditor relied on policy and information obtained in formal interviews and informal conversations.

"The alleged victim shall be provided a completed OPA-130 (PREA Support Services form) by the PSP with the results of the investigation." Compliance Determination

Absent a PREA incident the Auditor determined compliance based on policy and interviews with various staff members who would be involved in ensuring proper notifications occurred including the facility Director, the PREA Compliance Manager and a PREA Support Person.

The Policy states, "Staff shall be subject to disciplinary action up to and including termination for violation of Department of Public Safety sexual abuse or sexual harassment policies. Consequences will be commensurate with the nature and circumstances of the sexual abuse or harassment committed." The New Employee Orientation Manual sets forth the obligation to report all activities which are violations of the law. It states. "If the violation is that a Department employee engaged in, attempted, threatened, or requested an act constituting sexual misconduct, termination of the employment of the employee shall be the presumptive disciplinary sanction." The Agency policy and training notify employees that those staff who engage in sexual misconduct have violated the North Carolina laws at a felony level. Staff interviewed understood that termination is the expected outcome for those who engage in sexual misconduct with youth at the JDC. This was confirmed by the WRJDC Director and the agency PREA Coordinator. The Agency Head representative also confirmed the fact that termination is the presumptive discipline for sexual abuse.</p> <p data-bbox="240 1825 1469 1986">Indicator (c) North Carolina Department of Public Safety policy allows for other sanctions to occur besides termination if the incident is of a non-criminal act. Discipline can occur for other behaviors related to PREA, such as inappropriate comments/language. In these cases, the DPS policy dictates it would review the individual's history and make suitable sanctions consistent with laws. There have been zero cases of staff discipline at any level in the past 12 months for a concern related to sexual misconduct.</p> <p data-bbox="240 2076 1490 2161">Indicator (d) The Auditor was able to confirm, with the WRJDC Director, that any termination or resignation would not stop the case from being referred for prosecution. resignation, will be reported to the appropriate criminal prosecuting authority or relevant licensing bodies. There have been zero cases in the past 12 months.

Conclusion: The North Carolina Department of Public Safety policies address the standard's expectation toward the discipline of staff persons who sexually assault or harass an individual in custody. The NCDPS has created an Office of Special Investigations to ensure transparency of the investigative process. Though there has been no discipline of staff at Wake Regional Juvenile Detention Center in this past year, the agency has provided documentation and education of employees to support compliance. Disciplinary actions of staff include a variety of sanctions, including termination, which will be presumed for a substantiated finding of sexual abuse. The policies also require, consistent with the standard, criminal acts are referred for prosecution and sexual misconduct to be reported to appropriate licensing bodies. Compliance absent an incident is based on policy, interviews, and mechanisms in place to hold staff accountable.

This is covered in the PREA Policy as well as in the orientation training for all new volunteers. Contracted employees who provide direct service receive the full training on PREA that the WRJDC staff receive. Both contracted staff and volunteers sign acknowledgment forms stating they understand an act of sexual misconduct or failure to report such actions could result in termination of access to the facility and, when appropriate criminal charges being filed. If the investigative process reveals that the actions were criminal in nature, the case would be referred for prosecution. The policy requires the agency to refer incidents involving these individuals for investigation by law enforcement agencies. There were no incidents requiring the removal of a contractor or volunteer for sexual assault or sexual harassment, according to the Director and the PREA Compliance Manager. Contracted staff were aware that they could be barred for violation of JDC rules related to PREA. The Auditor was able to speak with contracted staff to confirm their training and understanding of PREA. Compliance, absent allegations, is based on policy, supporting documentation and interviews.</p>

The discipline code defined in policy prohibits and physical contact between residents (RP DC Pg. 18). The Policy outlines the definitions of and the ranges of consequences for both major and minor misconduct. Through this process, consistent application of discipline appears to be supported. The resident will continue to receive education, programming, and treatment services even on the disciplinary status. The Policy defines two major infractions related to PREA, sexual misconduct and sexual offense. The facility has not had any such cases in the last three years.</p> <p data-bbox="240 1868 1485 1930">Indicator (f) Residents Interviewed supported they cannot get in trouble for making a PREA complaint unless they have been proven to have purposefully lied.</p> <p data-bbox="240 2011 1481 2105">Indicator (g) Residents who engage in consensual sexual misconduct can be subjected to discipline as defined in the handbook. "Sexual activity not by force or under duress is considered sexual misconduct even if it is not a criminal violation." There have been no cases of discipline of juveniles at WRJDC for sexual misconduct.</p>

Compliance Determination

North Carolina DPS Juvenile Justice addresses the requirements of this standard in several policies. The documents cover the disciplinary process, the consideration of the mental health of the resident in determining consequences, and that sanctions in the facility will be proportional to the offense. The North Carolina Department of Public Safety prohibits consensual relationships between residents and between residents and staff.

Residents who engage in sexual misconduct with staff cannot be disciplined unless it is determined the staff did not consent to the act. Residents can be disciplined for making an intentional false report related to PREA. Residents confirmed they understood that intentionally false allegations could result in discipline after a investigation of the allegation. Compliance, absent a PREA allegation, was based on policy reviews, interviews with staff and residents and documentation provided in investigative files. There were no cases for Auditor to review in which residents were disciplined for engaging in sexual misconduct.

During both the medical and intakes, which occur in the first hours after admission, resident are asked several questions which could identify prior sexual abuse history. Residents who are identified through the screening process or who admit a history of sexual trauma can be referred to either mental health services or to the local rape crisis agency. The Auditor confirmed this practice through the review of documented cases in client files and through interviews with residents and mental health, and medical staff. Juvenile Justice Facilities Detention Services Policy and Procedure (page 10) states, " If this screening indicates that a resident has experienced prior sexual victimization or has previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, staff shall ensure that the resident is offered a follow-up meeting with an LMHC within 14 calendar days of the screening."</p> <p>The medical and mental health records are separate from custody files to protect information from general staff access. The JDC has 24 hours on call nursing coverage and on-call mental health services. The facility operates as a treatment environment with residents having a treatment plan, identified goals, and regular clinical interventions. The JDC has a regular multidisciplinary meeting on each juvenile in the facility, allowing for regular communication on juveniles, including any noticeable changes in behaviors.</p> <p>Indicator (b) Residents who engage in sexual assault or have a history of sexual offenses are automatically referred to mental health for an assessment. The facility has licensed clinical staff who can treat individuals with sexual aggressive histories. The policy requires all residents are seen by mental health within 14 days of admission or after an incident of</p>

sexual aggression in the facility. As a pretrial facility all residents are seen within the 14 days window by mental health.

Indicator (c) Information disclosed by a resident about prior abuse history other than in screening tool information is part of the medical and mental health chart. Only information pertinent to the resident's treatment is disclosed to ensure safe placement in housing, education, programming, treatment, and work assignment. The Auditor confirmed through interviews with intake staff, case management staff, medical staff, Mental health Staff, facility leadership, and the PREA Coordinator that sensitive information is protected. Residents interviewed supported that information given to counseling staff is kept confidential. The Auditor was able to see special needs plans on the housing unit that may aid staff in understanding the resident's triggers. The information does not provide any specifics about an individual that can be used to manipulate the resident. Agency administration ensures residents who are identified as a risk to be victimized are not on the same unit as those with perpetuating behaviors. The Director explained that youth only go to school with the residents of their unit.

Indicator (d). All residents sign with medical and mental health staff, an understanding of the limits of confidentiality related to criminal behaviors. Residents interviewed confirmed they had signed acknowledgment forms and verbally understood why a medical or mental health staff must disclose actual sexual abuse or imminent risk situations. Mental health staff were able to explain the circumstance in which a resident who discloses prior abuse must be reported to the state child welfare agency and how it might vary if the resident is over 18.

Compliance Determination

All residents are screened when they arrive at the Wake Regional Juvenile Detention Center. Residents are screened by mental health and medical staff. Residents with sexual assault histories and sexual victimization histories are offered treatment in a meeting with a mental health professional within 14 days of admission. Medical staff have several intake questions that are PREA related, this allows residents who did not disclose concerns at admission a second opportunity to disclose in a medical environment. Mental Health staff also have a series of screening tools they use that also helps to inform the PREA screening tool and resident's treatment planning. The Auditor confirmed medical and mental health records are not accessible to the custody staff. This process limits access to the most vulnerable information protecting the residents from having information exploited. Supporting documentation provided to the Auditor showed how Medical informs Mental Health who follows up on any disclosure of sexual abuse. Compliance was based on policies noted. The documentation provided showed referrals for treatment follow up, the security of records, interviews and information provided on tours by the Medical and Mental Health staff.

Registered Nurses are on site at least twice a week as well as a medical practitioner. availability of on call medical and mental health practitioners. The services are diverse and consistent with community health clinics. Residents report access to these services if they are in crisis. Medical staff report having medical autonomy if the resident must go out of the building for emergency services to facilitate that trip. The medical staff state the facility administration is supportive of the work they do, and they work to resolve issues when they arise. Client files support quick access to health services in response to PREA allegations, including, when appropriate, the referral to a local hospital for SANE services. PREA Policy ensures that alleged victims of sexual misconduct receive immediate, unimpeded access to medical and mental health services, the nature and scope of which are determined by medical and mental health practitioners according to their professional judgment. Medical staff confirmed their autonomy in making sure resident's needs are addressed.</p> <p>Indicator (b) Random staff knew as part of their first responder duties that immediate notification to medical was required. This is also stated in the facility's Sexual Assault Response plan available to staff. A resident who is in need of a forensic exam will be sent to the WakeMed Hospital in Raleigh. Staff interviewed understood their role to encourage as detainee to go to the hospital and to not do anything that would destroy to degrade the physical evidence.</p> <p>Indicator (c) Discussions with hospital staff and facility medical staff confirm that sexual assault victims would be offered STD and pregnancy testing, emergency contraception, and prophylaxis medications. The Auditor confirmed the same medications would be offered to the resident again upon return from a forensic exam even if they initially denied it. Medical staff confirmed they would educate the resident on the importance of such medications for continued health. There were no instances requiring emergency contraception. Medical staff at the hospital confirmed that emergency contraception is available to victims.</p>

Indicator (d) The Auditor confirmed that medical services related to sexual assault victims are provided without cost in North Carolina. Payment for the medical forensic examination is done through the Rape Victim Assistance Program (RVAP), a state of NC-funded entity through the NC Dept of Public Safety. "Payment is made directly to the medical facility or medical professional. An itemized copy of the bill must specify the categories of expenses under which the services fall and be submitted with the RVAP Form-2019." The Auditor also confirmed that victims of sexual assault are provided initial and follow up services at a local hospital through funding from the state. This is done to encourage all victims to come forward for help. The Medical team at WRJDC would function in the same way by providing follow up care.

Compliance Determination

WRJDC can quickly respond to and provide emergency care and referral to a local hospital for forensic services. The agency response plan for PREA incidents outlines the steps taken to ensure access to care. Wake Regional Juvenile Detention Center does not have on site medical nursing staff 24 hours per day but appears to support there is sufficient resources for the population. The facility also has on call providers that can help to facilitate the referral to an outside medical hospital. The Auditor reviewed state websites and spoke to a representative of the local hospital. Compliance is based on policy, staff understanding of expectations, the availability of onsite medical and mental health resources, and access to SANE nursing services at local hospitals.

Summary Determination

Indicator (a) The Wake Regional Juvenile Detention Center ensures that all residents are provided with the appropriate level of medical and mental health services for any issues of sexual abuse. Medical staff will provide the appropriate level of care depending on how long ago the abuse occurred. If the incident has occurred recently the resident will be offered a forensic exam at a local hospital. If the incident is a prior life event that occurred in another institution or in the community the medical and mental health teams will complete a health assessment and mental health referral for services. If the resident is more comfortable discussing the abuse with a rape crisis agency staff person that would be arranged by the MHC or the PSP. Medical staff confirmed juveniles in crisis can be moved within minutes to outside hospitals for critical care and that there is no conflict with custody staff on this process.

Indicator (b) Residents who are victims of sexual assault in a NCDPS Juvenile Justice facility are immediately referred to mental health services as well as medical services. If the services are provided initially in a hospital setting, as would occur in the forensic exam, WRJDC medical services can provide the appropriate follow up services. The WRJDC Medical and Mental Health staff spoken to confirmed, as did the InterAct representative, that they would make referrals to ensure continuity of care if the resident was released home or transferred to another facility. Medical staff confirmed that if a resident has been transported to the hospital, the facility medical staff will thoroughly review the discharge instructions, carry out orders as appropriate, and develop treatment plans for alleged victims upon returning to the facility. Facility medical staff report the steps will all be documented in the resident’s electronic health care record.

Indicator (c) NCDPS offers residents of WRJDC a full array of medical and mental health services, including dental and vision. The medical clinic addresses the needs associated with the adolescent male population. The medical team can address any issue related to post sexual assault, including prophylactic treatments for STD and pregnancy testing and

counseling. Mental Health services include counseling, medication management and, when needed the extra support. Residents of Wake Regional Juvenile Detention Center confirmed with the Auditor that they have free access to Mental Health Services and Medical Services.

Indicator (d) Wake Regional Juvenile Detention Center serves both male and female residents. Hospital and facility medical staff confirm the pregnancy testing will be offered. The WRJDC medical staff will continue to encourage a female to be tested even if they initially refused.

Indicator (e) Wake Regional Juvenile Detention Center medical staff confirmed that residents will be educated on pregnancy related services if the victim becomes pregnant. The WRJDC medical staff will continue to educate the victim on their options upon returning to the facility.

Indicator (f) The Auditor confirmed with both the medical staff at WRJDC and the representative of WakeMed Hospital that victims of sexual assault are offered testing for sexually transmitted diseases. This testing is provided free of charge, consistent with agency policy and state law.

Indicator (g) Treatment services are provided without cost to the resident, including if the resident must go out for a forensic exam.

Indicator (h) All individuals involved in a sexual assault, both the victim and perpetrator, are referred for mental health assessments. The state's Rape Crisis Assistance Program is responsible to ensure hospitals are paid for the treatment of victims of sexual abuse. This ensures that victims are not hesitant to come forward due to a lack of finances. The Auditor was able to confirm with mental health staff that they can complete a full array of services for both the victim and perpetrator of sexual abuse.

Compliance Determination

The NCDPS Juvenile Justice services ensure residents have ongoing access to services that address the healthcare needs of resident victims of sexual abuse. The Auditor confirmed the capacity to support victims of sexual violence. The WRJDC health services staff would provide follow up medical and mental health services for victims of sexual assault or perpetrators of sexual offenses. Healthcare staff would ensure that all medical needs and follow up treatment were provided after an initial referral to the local hospital for a forensic exam. Medical staff confirms that they could educate residents about the importance of pregnancy testing, STD testing, and prophylactic treatments if they initially refused these treatments at the hospital. Compliance is based on the resources available on site and community-based services, the interviews with medical and mental health staff, and interviews with representatives of InterAct. There were no incidents of staff having to respond to sexual abuse of a juvenile at WRJDC.

	<p>Auditor Discussion</p> <p>Policies and written/electronic documentation reviewed.</p> <p>Wake Pre-Audit questionnaire</p> <p>Juvenile Justice Facilities Sexual Abuse and Harassment Policy and Procedures</p> <p>Post Incident review form (OPA-I10)</p> <p>Individuals interviewed/ observations made.</p> <p>Interview with WRJDC Director</p> <p>Interview with PREA Coordinator</p> <p>Interview with PREA Compliance Manager</p> <p>Summary Determination</p> <p>Indicator (a) Juvenile Justice Facilities Sexual Abuse and Harassment Policy and Procedures</p> <p>(page 9) sets forth the requirement of an incident review on all cases of sexual abuse unless the investigation has determined the allegation was unfounded. Policy states, "the PCM will conduct a Post Incident Review (PIR) after every sexual abuse investigation unless "unfounded." The PIR (OPA-I10) will occur within 30 days of the conclusion of the investigation, and a copy of the final PIR will be submitted to the PREA Office within 30 days of completion. The PCM will include a review team of management, supervisors, investigators, and medical/mental health providers to conduct the PIR. The review team will:</p> <ol style="list-style-type: none"> 1. Consider if there is a need to change policy or practice; 2. Consider if the incident was motivated by race, ethnicity, gender identity, LGBTI identification, status, gang affiliation, or was motivated by group dynamics at the center; 3. Assess if physical barriers enabled abuse; 4. Assess the adequacy of staffing levels; 5. Assess if monitoring technology should be deployed or supplemented; and 6. Prepare a report of findings, determinations, and improvement recommendations. If the center does not implement recommendations, reasons must be documented." The Auditor was provided with examples of the review form that would be used if WRJDC had an incident of sexual abuse. <p>Indicator (b) The policy states, consistent with standard expectation, the review should occur within 30 days of the investigation conclusion. Interviews with the facility Director and the PREA Compliance Manager both supported knowledge of the importance and timeliness of the reviews. Absent an actual incident of sexual abuse, the only other documentation that was reviewed was part of the mock PREA incident drills.</p> <p>Indicator (c) As noted in indicator (a) the policy language addresses the multi-discipline nature of the team. In a review of documentation provided and various staff interviewed, the multi-disciplinary nature of the team was confirmed. The mock PREA incident drill reviews were completed by a multi-disciplinary team. Employee assumed roles as they responded and those individuals would likely be part of the post incident review. The Director believe he would include the PCM, line Supervisor, and a PREA Support Person as well as Medical and mental health staff. Information requires that all reviews be forwarded to the NCDPS PREA Office and the Regional Director for further review. The agency PREA Coordinator confirmed their review would also look at systemwide complaints to further identify consistencies that may need to be addressed through policy or training needs.</p>

Indicator (d) The elements described in this indicator are all covered in policy as noted in indicator (a) The agency Post-Incident Review form (OPA-110) uses an agency approved form to document the review panel's considerations include the required information. The PIR form considers if the policy needs to be reviewed, the underlying motivation for the incident, including if the victim was targeted due to their perceived membership of a particular group. It goes on to look at staffing, physical plant issues and surveillance needs.

Indicator (e) The Post Incident Review form used in all NCDPS Juvenile Justice facilities documents the findings to the questions asked in this standard indicator. It provides the reader with information if the team has determined the cause of the abuse related to the six sub-indicators described in (d) and any recommended actions. In the form reviewed by the Auditor from the mock audit, there were no immediate recommendations.

Compliance Determination

The North Carolina Department of Public Safety policy requires the completion of the steps outlined in this standard. The interviews support knowledge of aspect of a critical incident review in a PREA sexual assault cases. The policy requires what information needs to be part of the incident review. The language comes directly from standard. Absent an actual incident, compliance was determined based on policy language, the documentation provided, incident review member's understanding of the requirements and the incident review form.

Interviews with the Agency Head representative, Regional Director, PREA Coordinator, and the facility Director at WRJDC supported they utilize data to make informed decisions on programmatic and policy needs. This is consistent with the standard expectation to do a critical review of data to identify problem areas and enact corrective actions. Since the PREA Coordinator works in the Standards Division of the North Carolina Department of Public Safety, trends can be reviewed, and changes supported either from the facility level; such as supporting the need for additional staff or electronic surveillance equipment; or from a central administrative level such as policy/procedural modifications. The agency also showed compliance with PREA standards through the annual report that combines data, graphs, and narrative information on NCDPS's efforts since 2015 to develop PREA safe facilities. The Auditor was provided ample space and privacy to conduct confidential interviews with staff and residents. 	Does the agency ensure that each facility's staffing plan takes into consideration the 11 criteria below in calculating adequate staffing levels and determining the need for video monitoring: Any other relevant factors?	yes

115.313 (b)	Supervision and monitoring	
	Does the agency comply with the staffing plan except during limited and discrete exigent circumstances?	yes
	In circumstances where the staffing plan is not complied with, does the facility fully document all deviations from the plan? (N/A if no deviations from staffing plan.)	yes
115.313 (c)	Supervision and monitoring	
	Does the facility maintain staff ratios of a minimum of 1:8 during resident waking hours, except during limited and discrete exigent circumstances? (N/A only until October 1, 2017.)	yes
	Does the facility maintain staff ratios of a minimum of 1:16 during resident sleeping hours, except during limited and discrete exigent circumstances? (N/A only until October 1, 2017.)	yes
	Does the facility fully document any limited and discrete exigent circumstances during which the facility did not maintain staff ratios? (N/A only until October 1, 2017.)	yes
	Does the facility ensure only security staff are included when calculating these ratios? (N/A only until October 1, 2017.)	yes
	Is the facility obligated by law, regulation, or judicial consent decree to maintain the staffing ratios set forth in this paragraph?	yes
115.313 (d)	Supervision and monitoring	
	In the past 12 months, has the facility, in consultation with the agency PREA Coordinator, assessed, determined, and documented whether adjustments are needed to: The staffing plan established pursuant to paragraph (a) of this section?	yes
	In the past 12 months, has the facility, in consultation with the agency PREA Coordinator, assessed, determined, and documented whether adjustments are needed to: Prevailing staffing patterns?	yes
	In the past 12 months, has the facility, in consultation with the agency PREA Coordinator, assessed, determined, and documented whether adjustments are needed to: The facility's deployment of video monitoring systems and other monitoring technologies?	yes
	In the past 12 months, has the facility, in consultation with the agency PREA Coordinator, assessed, determined, and documented whether adjustments are needed to: The resources the facility has available to commit to ensure adherence to the staffing plan?	yes
115.313 (e)	Supervision and monitoring	
	Has the facility implemented a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment? (N/A for non-secure facilities)	yes
	Is this policy and practice implemented for night shifts as well as day shifts? (N/A for non-secure facilities)	yes
	Does the facility have a policy prohibiting staff from alerting other staff members that these supervisory rounds are occurring, unless such announcement is related to the legitimate operational functions of the facility? (N/A for non-secure facilities)	yes
115.315 (a)	Limits to cross-gender viewing and searches	
	Does the facility always refrain from conducting any cross-gender strip or cross-gender visual body cavity searches, except in exigent circumstances or by medical practitioners?	yes
115.315 (b)	Limits to cross-gender viewing and searches	
	Does the facility always refrain from conducting cross-gender pat-down searches in non-exigent circumstances?	yes

115.315 (c)	Limits to cross-gender viewing and searches	
	Does the facility document and justify all cross-gender strip searches and cross-gender visual body cavity searches?	yes
	Does the facility document all cross-gender pat-down searches?	yes
115.315 (d)	Limits to cross-gender viewing and searches	
	Does the facility implement policies and procedures that enable residents to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks?	yes
	Does the facility require staff of the opposite gender to announce their presence when entering a resident housing unit?	yes
	In facilities (such as group homes) that do not contain discrete housing units, does the facility require staff of the opposite gender to announce their presence when entering an area where residents are likely to be showering, performing bodily functions, or changing clothing? (N/A for facilities with discrete housing units)	yes

	Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address resident grievances regarding sexual abuse. This does not mean the agency is exempt simply because a resident does not have to or is not ordinarily expected to submit a grievance to report sexual abuse. This means that as a matter of explicit policy, the agency does not have an administrative remedies process to address sexual abuse.	yes
115.352 (b)	Exhaustion of administrative remedies	
	Does the agency permit residents to submit a grievance regarding an allegation of sexual abuse without any type of time limits? (The agency may apply otherwise-applicable time limits to any portion of a grievance that does not allege an incident of sexual abuse.) (N/A if agency is exempt from this standard.)	yes
	Does the agency always refrain from requiring an resident to use any informal grievance process, or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse? (N/A if agency is exempt from this standard.)	yes

115.352 (c)	Exhaustion of administrative remedies	
	Does the agency ensure that: A resident who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.)	yes
	Does the agency ensure that: Such grievance is not referred to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.)	yes
115.352 (d)	Exhaustion of administrative remedies	
	Does the agency issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance? (Computation of the 90-day time period does not include time consumed by residents in preparing any administrative appeal.) (N/A if agency is exempt from this standard.)	yes
	If the agency determines that the 90 day timeframe is insufficient to make an appropriate decision and claims an extension of time (the maximum allowable extension of time to respond is 70 days per 115.352(d)(3)) , does the agency notify the resident in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.)	yes
	At any level of the administrative process, including the final level, if the resident does not receive a response within the time allotted for reply, including any properly noticed extension, may a resident consider the absence of a response to be a denial at that level? (N/A if agency is exempt from this standard.)	yes
115.352 (e)	Exhaustion of administrative remedies	
	Are third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, permitted to assist residents in filing requests for administrative remedies relating to allegations of sexual abuse? (N/A if agency is exempt from this standard.)	yes
	Are those third parties also permitted to file such requests on behalf of residents? (If a third party, other than a parent or legal guardian, files such a request on behalf of a resident, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process.) (N/A if agency is exempt from this standard.)	yes
	If the resident declines to have the request processed on his or her behalf, does the agency document the resident's decision? (N/A if agency is exempt from this standard.)	yes
	Is a parent or legal guardian of a juvenile allowed to file a grievance regarding allegations of sexual abuse, including appeals, on behalf of such juvenile? (N/A if agency is exempt from this standard.)	yes
	If a parent or legal guardian of a juvenile files a grievance (or an appeal) on behalf of a juvenile regarding allegations of sexual abuse, is it the case that those grievances are not conditioned upon the juvenile agreeing to have the request filed on his or her behalf? (N/A if agency is exempt from this standard.)	yes

115.352 (f)	Exhaustion of administrative remedies	
	Has the agency established procedures for the filing of an emergency grievance alleging that a resident is subject to a substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.)	yes
	After receiving an emergency grievance alleging a resident is subject to a substantial risk of imminent sexual abuse, does the agency immediately forward the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to a level of review at which immediate corrective action may be taken? (N/A if agency is exempt from this standard.)	yes
	After receiving an emergency grievance described above, does the agency provide an initial response within 48 hours? (N/A if agency is exempt from this standard.)	yes
	After receiving an emergency grievance described above, does the agency issue a final agency decision within 5 calendar days? (N/A if agency is exempt from this standard.)	yes
	Does the initial response and final agency decision document the agency's determination whether the resident is in substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.)	yes
	Does the initial response document the agency's action(s) taken in response to the emergency grievance? (N/A if agency is exempt from this standard.)	yes
