The following data is based on available information for the period starting April 1, 2024, and ending on June 30, 2024.

1. The percentage of the total juvenile offenders requiring hospitalization or hospital services who receive that treatment at each hospital.

During this quarter, there were 40 juveniles from the 2nd quarter of 2024 with billing claims for treatment or diagnostics at a community hospital or affiliated setting with 4 claims submitted for payment during the 2nd quarter of 2024.

All hospitals comply with the mandated rates of two times Medicaid rate or seventy percent of prevailing rates. All claims were processed in a timely manner by PBGA.

2. The volume of scheduled and emergent services listed by hospital and, of that volume, the number of those services that are provided by contracted and noncontracted providers.

Figure 1 below indicates the number of hospitals and related facilities providing emergent services and observational services provided in 2nd quarter, 2024.

Figure 1

4-01-2024 thru 6-30-2024	Emergent/ER	Scheduled	Total	Percentage
CONTRACT HOSPITALS	2	13	15	37%
NON-CONTRACT HOSPITALS	23	2	25	63%
Grand Total	25	15	40	100%

3. The volume of scheduled and emergent admissions listed by hospital and, of that volume, the percentage of those services that are provided by contracted and noncontracted providers.

Juvenile Justice had 40 juveniles receive hospital services during the 2nd quarter. 15 juveniles were served by contracted providers and 25 were served by non-contracted providers.

4. The volume of inpatient medical services provided to Medicaid-eligible juvenile offenders, the cost of treatment, the estimated savings of paying the nonfederal portion of Medicaid for the services, and the length of time between the date the claim was filed and the date the claim was paid.

Of the 40 juveniles who received hospital services during the 2nd quarter, four (4) juveniles received inpatient hospital services. Claims were paid in the 2nd quarter cycle that were posted in prior cycles.

5. The status of the implementation of the claims processing system and efforts to address the backlog of unpaid claims.

The DPS Controller's Office is providing on-going updates regarding the resolution of any remaining backlogged claims.

6. The hospital utilization, including the amount paid to individual hospitals, the number of juvenile offenders served, the number of claims, and whether the hospital was a contracted or noncontracted facility.

Hospital/Facility	Contracted	Claims Paid	Number of Juveniles Served	Number of Claims Submitted	Total Charged	Total Paid
ECU Health Physicians	Y	1	1	1	\$188.00	\$131.60
ECU Health Medical Center	Y	1	1	1	\$2,696.67	\$108.18
Total		2	2	2	\$2,884.67	\$239.78

Due to the size and staff structure of Juvenile Justice, there is not a comparable system, i.e., OPUS or Utilization Review Section. All medical claims are processed via paper claims by business officers at each Youth Development Center location. PGBA and DPS have created a workflow to accommodate the submission of hard copy claims.

7. A list of hospitals under contract.

Currently, PGBA confirms contracted hospitals and affiliates with DPS Purchasing and Contracts. The quarterly data submitted by PGBA confirms payment at the legislatively mandated rate of two times Medicaid or 70% of prevailing charge, or at the contractually agreed upon rate due a shortage of providers in the area.

8. The reimbursement rate for contracted providers.
