Re: 2026 NC RMT Schedule

Attached to this memo you will find the NC RMT Schedule for 2026. Please feel free to distribute to whomever within your organization you see necessary. I also recommend printing and including it along with the latest version of the FCC EAS Operating Handbook at all operating positions, obtainable at <https://www.fcc.gov/general/eas-test-reporting-system>

Note the March RMT is subject to change as it has been coordinated with the National Weather Service as part of their Severe Weather Preparedness Week.
